Jun 26, 2018	Jackie L.	Tony and William did an amazing job cleaning our air ducts and dryer vent. They were very knowledgeable, organized, and took the time to explain the process and show me before and after pictures. Our older home had 70+ years of filth that they removed from our ducts and we now have piece of mind our family is breathing in cleaner air. Would highly recommend and will use them again!

Jun 22, 2018	Coola O.	If I could give company 10 stars, I would. Tony and Daniel worked very hard at my home and cleaned the ducts and a lot of mold on my motor and air conditioner coil. I dealt with several other companies before finding Quality Air Solutions and the other companies were scammers. I am very, very satisfied.

Apr 20, 2018	Eugene D.	Outstanding service provided by Quality Air Solutions. Technicians Tony and George did a thorough, painstaking job that included removal of a few gallons of lint, a bees nest, a wasp nest, installation of steel vent pipe replacing out-of-code, detached foil, restoration of air flow to our dryer and sundry fixings. All completed over several hours at a fair price. They have our highest recommendation.

Apr 16, 2018	Telly L.	Great customer service is hard to find. From the girl who answers the phone to the technicians that came to my home, it has been a great start. The technicians that came to clean the duct vents arrived on time, explained the process, showed me what was extracted, cleaned up and left. Very professional company and I will be using them again.

Apr 09, 2018	Lorie M.	I really can't say enough wonderful things about my experience with Quality Air Solutions from booking their services to meeting their professional cleaners. Prior to hiring Quality Air Solutions, I heavily researched what duct cleaning entails, including average pricing and which scams to look out for--especially mold. So when Sonny and Ramon came over for the duct cleaning, I directly asked him about mold and it was clear by their response that it would be unlikely, that they were not out to nickel and dime me. However, they did find mold and even showed it to me as proof. They treated it right away and were able to keep their services at fair price. What really impressed me though was how both professionals worked so efficiently and quickly that they completed the work in 2 hours without leaving a trace of dust. Now my house smells refreshed and even my allergies have tremendously improved! I would definitely recommend this company and have already recommended them to my friends! I look forward to continuing working with them. If I can give them more than 5 stars, I would. EXCELLENT!
Apr 05, 2018	Robert M.	Tony and George were timely, explained the process, showed me what came out and was most impressed by the cleaning. We are now on a regular schedule for this.

Apr 03, 2018	Brenda P.	Joe and William are charming. They cleaned my ductwork and everything went great. They came out in lousy weather, got right to work and no mess left behind. A true pleasure.
Apr 03, 2018	Nasri H.	Just had my ducts cleaned by Tony and George. Very good, good job, very happy with them. Will call them back in 3 years.
Apr 03, 2018	Lorraine De La F.	Sonny and Ramon did a duct cleaning and dryer vent cleaning at my home for a great price. They found mold and treated it right away. They are coming back in 8 months to make sure there has been no new mold growth. What a great company to work with.
Apr 03, 2018	Nanci A.	Prompt, courteous, thorough -- will keep using them over and over
Mar 31, 2018	Richard D.	Absolutely fantastic service! Let me just say this! I will use these guys again, they provided excellent customer service and paid very close attention to the work I needed done. They found a lot of issues that the last company I used "Sears" didn't do, they also didn't clean up well. Quality Zaire Solutions, completely cleaned the air ducts and did a solid job with everything. I highly recommend them and you will love the service they provide.

Mar 17, 2018	Sharon Jackson	<p>Dryer vent cleaning Superb services!!!!!! Joe and William were professional, courteous, respectful and informative. Upon entry they respected my home by taking off their shoes. Joe explained everything to me prior to the service and updated me through the entire process. The placed drop cloth throughout each area ensuring my carpet remained clean. The hesitation I had about this type of service has been removed. Thanks Joe and William, I DEFINITELY recommend these gentlemen \$1,000% !!!</p>
Mar 11, 2018	Stephen Long	<p>Vent and Dryer Cleaning Anthony came the day after we called. He went through the house and gave us a very complete estimate. The house is over 80 years old and we had never had our ducts cleaned. We scheduled him to come back the next week. It took around 6 hours for two men to clean the ducts. Anthony showed us both before and after pictures. The heating in our house is much better since this was done which I found interesting and didn't expect. Some ducts were completely clogged! He also recommended other things we should do like change the furnace filters (which we had done in the fall but because the ducts were so dirty the furnace filters were dirty). I would strongly recommend this company. We had our ducts cleaned and dryer duct cleaned</p>
Jan 29, 2018	Phyllis Keehn	<p>Work was completely in a timely and professional manner. Duct cleaning</p>

Jan 17, 2018	Stephen Sundlof	The company did a very thorough job and managed to clean the most inaccessible ducts. Air duct cleaning.
Jan 17, 2018	Kathy S.	We are very pleased with the air duct cleaning by Tony and William. Great communication and it was clear they knew what they were doing. We bought an old house and it never had the ducts cleaned. They spent over 4 hours doing it right. All the build up was blocking air flow and we could tell the difference right away. So happy.

Dec 08, 2017	Jamie Murphy	Anthony/Tony was professional, knowledgeable, and educational in his communication with me and my husband. He took duct pictures to show the build up of dust, mold, and dirt. The process was about 3.5 hours and Tony stayed busy the entire time. He explained what he was doing and made suggestions, like replace all the vent covers near the floors, which we did. There was a fair amount of black mold on these covers. The house smelled like lemon from the biocide application - fresh. Just a suggestion, cat owners may want to crate their cat during the process. I did not and now she is still on alert one day later and not eating...no fault of Tony's. He warned me. Cleaned air ducts and dryer vent thoroughly and applied chemical biocide in ducts

Dec 04, 2017	Matthew Richardson	It went well. Clothes dryer duct cleaning
Dec 03, 2017	Patricia McBarron	I used this company twice. A year ago they replaced a dryer vent that was disconnected in the ceiling. I was relieved that they could replace the vent tubing from dryer, through the ceiling to the outside of my house - about 30 feet altogether. I was so relieved that they could do this without cutting into my ceiling to reach the disconnected pieces. They did a great job! Last week Michael from Air Quality Solutions came to inspect my duct work. He fished out toys that kids of prior homeowner had inserted through the vent. He determined that there was no visible evidence of mold and that I probably didn't need the \$1k UV light the HVAC company wants to sell me. I trust this company - they demonstrated both ethics and competence. New dryer vent and connection inspection of HVAC ductwork.

Nov 14, 2017	Barbara Sandoval	Work appeared to be okay. Worker did leave debris on dryer and in washing machine. Pricing however is dubious. When you call they give you a range \$179-300, which is okay. However, I made the mistake of telling them I had the Angie's list \$10 coupon so surprise, my bill was \$189. I asked the worker how he determined the price and he said something about length of time and distance traveled. He was here for 40 minutes which included a cigarette break. I am in Arlington and they are in suburban Maryland. If they don't want to service Virginia, they should say so up front. Dryer vent clean out
Nov 14, 2017	Terri Ware	A+++, Excellent!! Showed up on time and did a good, high quality and thorough job cleaning the air duct and dryer vent! Workers were prompt, timely, professional, knowledgeable and friendly. (They were very talkative which is fine for most, maybe a little too much for me:). Overall they did excellent work and I will recommend the company to anyone needing this service. Cleaned my dryer vent and air duct; removed lint and anything else blocking the flow of air.

Having said this, the quality of work and professionalism of the gentlemen who actually performed the work was top notch. Recommended! Quality Air Solutions performed duct cleaning on my home.
Oct 16, 2017	James F Strother	Superbly well. I could have not been more favorably impressed. You can't go wrong here. We purchased the coupon offering the cleaning of one vent for, as I recall, \$152.
Oct 13, 2017	Renee N.	One of the best service companies I have ever dealt with. Extremely professional, on time service. Did not charge for initial diagnosis of problem and then completed "outside" job since I was then out of town and said they would bill me. To me this is unheard of that someone would agree to do a job and not be paid that day. They rechecked slightly different issue yesterday and there was no charge. Again, usually unheard of... Would HIGHLY RECOMMEND & I will certainly use their services in the future! Thank you!

Oct 12, 2017	John Fitzwater	Workers arrived promptly, provided a reasonable estimate, and got to work. The end product was installed well, performs well, and looks nice. Needed to replace a dryer vent, including the tube.

Oct 09, 2017	Jim Chika	As far as I can tell the air ducts are pretty clean. However, the amount of dirt that ended up on my floors throughout the house, and lots of dust that blanketed the utility room where my furnace is was unexpected. I spent a full day hand washing the wood and concrete floors afterward, as well as sweeping and vacuuming the debris in the utility room. The heavy vacuum equipment left scratches on my basement stair paint as it was transported down and up. There was an outside entrance to the basement that was pointed out and ignored.
Oct 03, 2017	Neil Gamson	Clean air ducts Fine. Very thorough, very neat. Clean ducts
Sep 27, 2017	Brant Weinstein	The technicians did an extremely thorough job - it took a lot longer than expected because our ducts were so filthy. The technicians called us over several times to have a look at the "before" and "after" as they went through cleaning our ducts. The difference was amazing and it was clear that they were being very fastidious in getting to every nook and cranny of our system. The technicians were clearly professionals at their job who took a lot of pride in their work. We will definitely be hiring them to clean our ducts next time! Cleaning of our air ducts... that it turns out had probably not been cleaned in decades because the last company we hired didn't actually do the job properly :-)
Sep 27, 2017	Thomas Capon	Scheduled for a weekday, but they later offered me a weekend opening which was more convenient for me. Arrived on time and very professionally. Cleaned out my super-dirty ducts so they look new! Also completely replaced my old dryer duct and cleaned out the dryer for a very reasonable fee.
Sep 25, 2017	Dickey Yee	Cleaning air ducts and dryer vent in a 60-year-old home. Spent a great deal of time to clean vent pipe Clean dryer vent
Sep 25, 2017	janelle p.	This review is for the phone service I received when I called for estimate. The operator, Karen, was so rude I did not pursue making an appt. Audible sighing and impatient tone during a 2 minute convo at 945am. Perhaps they do a great job, but I will never know.
Sep 19, 2017	Jonathan R.	It was taking 2 hours to dry a load of clothes. I called Quality Air Solutions and got an appointment the same day. There was a birds nest in my vent which was blocking the air. Nice job.

Sep 11, 2017	Ari Tuchman	perfect. on time and professional job. dryer vent cleaning
Sep 01, 2017	Richard F.	I requested a quote and they responded within a couple of hours with a return phone call. They then proceeded to tell me the price over the phone. I don't have that much ductwork in my Cape Cod house, let alone upstairs. The price was unreasonable from someone never being in my house. I thought lawn service providers were the only ones to price via google maps.
Aug 30, 2017	Carla Aikens	I can tell the difference! Tony and William did a great job. Very professional, and informative. Will definitely use this company again.
Aug 29, 2017	Joan F.	It never dawned on me to have my dryer duct cleaned until a neighbor told me she had this company clean hers. I called them, got an appointment the next day and they cleaned so much filth and wet lint I was flabbergasted. Nice company - they know what they are doing.

Jul 16, 2017	NANTHER THANGARA	We had used this company in 2015 to perform the same work. The same technician, Sonny, performed the work this past May and was once again professional and meticulous in the work he did. He was able to clear out our ducts and improve our air quality. He made sure no mess was left behind as a result of the duct cleaning, and ensured that our dryer vent was completely cleared of any lint and other debris. We will definitely bring Quality Air Solutions back again in a few years. Air Duct and Dryer Duct Cleaning.

From the phone call in the office where I was quoted a fair price for the size of my home, to scheduling me two days later to the excellent service by the techs! They provided me with video of my DISGUSTING air and dryer vents. I had my vents cleaned three years ago by another company and they did not come close to cleaning like this company. In fact, they found a 35 YEAR OLD BEER CAN IN THE VENTS! UGH! You get what you pay for and this company is worth every penny!</p>

Apr 03, 2017	Joma W.	When I contacted Quality Air Solution, the lady that I spoke with was so helpful. I told her we need our dryer vent clean and I asked her how much it cost. She gave me a reasonable estimate and asked me the reason why my dryer vent needs to be clean. She scheduled me for the following weekend which works for us. Then, the day before the people coming she called me to remind that QAS will be at our house between 3pm-5pm. The day that the people were coming, I got a call from Joe that they were coming 30 minutes earlier than scheduled time, which was better for us. So Joe and Luis cleaned our dryer vent and explained what causes of the clogged and gave us few tips on how to clean. And they said we don't need to clean the dryer vent until 2 years again. So my husband requested if we can have a reminder every 2 years for them to clean our dryer vent. After they left I started the laundry and the clothes definitely smells way better than before. We will be using the company from now on and will recommend to our friends and family.

Jan 31, 2017	Portia W.	Had my air vents cleaned. Brandon is a very patient man. I know I followed him around my house and asked a million questions. He graciously answered them all and offered suggestions of furnace filters because the one I was using was too restrictive. I am extremely happy with the work that he did. I am now on their 2 year "calendar" of dryer vent cleanings.

Jan 31, 2017	Paul M.	Sonny came to clean my dryer duct. He found it had disconnected in the wall space and he had to cut into the drywall to get it fixed. It was a very professional job and he really knew his stuff. Great company to do business with.

Jan 24, 2017	Estelle D.	I kept noticing how dusty it was in my house so I decided to call a duct cleaning company and just let them show me what was in there. I contacted Quality Air Solutions because of their wonderful reviews and set up an estimate. When Brandon came and showed me what was in the ductwork, I almost got sick. We have pets and years ago did a remodel in our basement. There was all kinds of hair, dirt, dust, unbelievable! Jan 17, 2017	Amanda H.	I had Tony and Luis clean my airductwork. They were very thorough and Tony checked my dryer vent and it had never dawned on me to clean it. I clean the lint trap and vacuum around it but have never had it done. I was told it was a fire hazard and I could have stuffed a pillow with the amount of lint that he got. Thank you, thank you and this will be done every 2 years with your company.

Jan 17, 2017	Erika M.	Great company. I had Brandon clean my dryer vent and he found that it was disconnected and venting into my wall cavity - what a mess. He had to cut thru drywall to get to the vent and reconnected it and ran it back to the outside vent. He even took his vacuum and got as much lint from the wall as he could reach and he is a tall man. He went above and beyond anything I could have asked for. I am recommending them to my neighborhood list serve and I will be using them again every 2 years.
Jan 11, 2017	Constance S.	I contacted Quality Air Solutions after a conversation with Jon Gordon at MoldGone who had asked when our HVAC vents had last been cleaned. I'd always thought of dryer vents but never of the air handling system vents. I spoke to Karen at Quality Air and requested the first available date to have both jobs done. It happens that was the day before Thanksgiving. Luis and Ramon arrived at the agreed time and set about their work. Luis discovered mold on part of the air handling unit in the crawl space and also on the inside of two vent covers. He pointed these out to me and took photos. He explained suggested treatment options and I elected the use of Benefect, which could be dispensed through their vent cleaning equipment. At \$200 I thought it was worth a test. The two of them worked for hours and in the end showed me the before and after of our ducts and the amount collected on the filters of their suction systems. They'd also cleaned the vent covers and the dryer vent. I was glad I'd had the work done.
Jan 10, 2017	Patricia S.	But here's the surprise: for years my husband has snored I must admit that I have never had my air ducts cleaned. I could not believe the filth that Tony and Ramon got from my system. They even found toys, pencils, paper clips, you name it, it was there. I will take better care of my home and have the air ducts cleaned more often than every 30 years! They guys were wonderful and thorough.

Sonny and Ramon explained exactly what they were going to do and worked without a break for 3 hours. I have noticed that my house seems cleaner, dust wise, and smells better. I do have cats and was very thankful Karen told me that it disturbs them because they were very nervous. I will use this company again and recommend them to my neighborhood list serve.

I feel like I got a whole lot more than I paid for and they were just great.
Dec 16, 2016	Phyllis S.	Tony is just amazing. He explains everything that he is going to do and shows you along the way what he's gotten from the ducts, gross, but interesting to see. He is completely professional. On time, cleaned up and made my house smell better. What more could anyone want?
Dec 14, 2016	Randall B.	Recently had ducts and dryer vent professionally cleaned. Technician was on time and on budget. There was no mess to clean up afterwards. My job took about two hours. Technician carefully explained what he was doing. He did not try to sell any unnecessary services, and did not give some alleged sale price. I would recommend.
Dec 13, 2016	Kristin Baird	Excellent service, the team was very professional, knowledgeable and helpful. They explained the job ahead of time and gave me updates throughout. They covered the floors and cleaned up nicely afterwards. Very pleasant to work with and also let me know ahead of time about noise etc. in case I needed to make conference calls (etc.), which I did. Overall a great experience. I suspect they are a bit pricier than other providers, but I feel I got my money's worth. Air duct and dryer vent cleaning.

Dec 07, 2016	Eddie C.	Tony is by far the best technician I have ever had in my home. He came to clean my air ducts, asked if I needed the dryer done and I asked him to check it. He found a disconnected piece and it was blowing dust and lint in between my walls and not venting to the outside. I did have him fix it and he even got as far in the wall as he could to clean up the lint. Amazing job. I am very proud to have him in my home. He works tirelessly and as much as I looked over his shoulder, he didn't get upset with me and answered all of my questions. I will continue to use this company for all of my future needs.

Dec 07, 2016	Heidi C.	I have used this company for about 5 years now. Every year I have them clean our dryer vent and every other year we clean our ductwork. They are such professionals. I just cannot say enough good things about this company. Always on time, always polite, always willing to answer a question. They go above and beyond their call of duty. I will continue to use Quality Air Solutions and was very glad I found them.

Dec 05, 2016	JUDIE PASQUINI	It went very well. Duct cleaning
Dec 02, 2016	Frank Silberstein	Excellent! Result! Noticed immediately years ago I had this done much cleaner & all I c*** rug is you get what you pay for. Lot more but results impressive (Before w/t less, barely hatred results). Supply & return ducts cleaned very thoroughly! Men & exhaust of drier cleaner. And mold cleaning.
Nov 23, 2016	Adele G.	Tony and Luis came and did a duct cleaning and my ductwork had never been cleaned before. Horrible stuff came out of my vents and I can't believe I have never done this before. They were great, very attentive and could tell that they really cared about what they did. They also cleaned my dryer vent and said it was a risk of fire. I appreciate all of the hard work and will be using this company again soon.
Nov 22, 2016	Marsha Reichman	Great! We recommend them highly. Quality Air Solutions cleaned our heat/air conditioning vents. They did a phenomenal job. There was one technician, Sonny, who was extremely knowledgeable, provided great answers to all our questions, was very unobtrusive, and did not require that we do a lot of moving of furniture, etc. We actually had moved more than he needed. The process took about 3-4 hours and an enormous amount of dirt/lint etc was removed. We can really feel the difference in the air, and much, much less dust accumulates.
Nov 21, 2016	Charlene T.	This is the nicest company I have dealt with in a long time.. Scheduling was easy, Joe and Ramon came and cleaned our air ducts. Nov 03, 2016 Gerard C. Guys did a great job. Luis and Ramon were very thorough and hard working. I am pleased with the results.

Nov 02, 2016 Beth D. Brandon did a phenomenal job! He found things I didn't know were there. Very bright and personable gentleman. He was at my home all day cleaning my ductwork and getting rid of some mold, he moved a Ultra Violet light that was installed in the wrong place and installed it correctly in the duct work. I am so glad I found this company and will use no one else.

Nov 02, 2016 Harriett K. I can't say enough good things about this company. Scheduling was a breeze. Brandon, Sonny and Ramon came to our home and cleaned the air ducts. They were there all day and showed me what they were pulling from our air ducts. Gross!!! It has been several weeks now and my house is not as dusty as it was and it actually does smell cleaner. I am impressed with these men and I am not easily impressed. I will continue to use this company in the future.

Nov 01, 2016 Michael B. Got ducts cleaned, arrived on time, worked until job was done, friendly crew.

Nov 01, 2016 Dennis F. Tony and Joe came to my house to clean my ducts. They were very professional, kept me informed on what was found and even cleaned the dryer vent that was a fire waiting to happen.
I appreciate good and honest work and that is what I got from Quality Air Solutions.

Nov 01, 2016 Betty F. My house smelled bad. I was not a believer in cleaning the ductwork but took a chance to see if that would improve the smell. Luis and Ramon came to my home, walked with me around the house finding all vents and explained what the process was and what the result would be. They work effortlessly for 4 hours cleaning the ducts. I could immediately smell a difference in the house and now am a believer in getting all of the junk, and I mean junk like hair, cat toys, general crud, pencils, you just could not imagine what was taken out of the ductwork. Thank you so much for putting a renewed freshness into my home. I have already recommended you to my neighbors.

Oct 29, 2016 Julie Moury I have no idea how well the ducts were cleaned but I assume that the job was done well. He showed me how much dust and dirt had come from the vents. He thought that the amount was a lot but I guess I expected to see more. The ductwork hadn't been cleaned in 40+ years. Since they had not been cleaned in such a long time, I also had him sanitize the ductwork with some sort of fogger that is supposed to kill all bacteria and mold. The mixture was one of multiple herbs (I have now forgotten which ones.. eucalyptus, spearmint???). My house is small (1276 sq ft) and the vacuum he used was relatively small. No view into the ducts before and after. I simply did not know what to expect, never having done this previously. I paid \$315 through Angies list for the ductwork cleaning and \$225 (by check) for the fogger.
Ductwork cleaned and sanitized

Oct 27, 2016 Charles P. I googled air duct cleaning and Quality Air Solutions popped up. I read their wonderful reviews and thought I would give them a try. Brandon was sent to clean them and he was great! He is very businesslike but personal. He was thorough and didn't make a mess. My ducts have never been so clean. This is a good company. I have already recommended them to my neighborhood list serve.

Oct 27, 2016 Katrina B. Sunny came to clean our air vents. He found all the vents and cleaned them out and taped them off. Then proceeded to basement to clean ductwork. He showed me what he was doing and then showed me what he was pulling out. It was gross!! I don't think I ever had this done before. My house smells better since this was removed. I will be using them to clean my dryer also. Very pleased.

Oct 27, 2016 Robert B. Great company. Easy to schedule, timely crew, good workers, get the job done right. Will continue to use this company.

Oct 27, 2016	Che C.	Luis came and cleaned the air ducts. He took his shoes off, without being asked, and toured the house looking for each vent. He worked tirelessly for 4 hours until everything was neat and clean. Very nice, personable man. Did a wonderful job on my vents. Air smells cleaner already.
Oct 26, 2016	Paul B.	Had our ducts cleaned by Brandon. He was very organized and took his time and worked through lunchtime until the job was done. He gave us tips on maintenance and was just a wealth of information. Good, honest company. I will be doing business with them again.
Oct 25, 2016	Cynthia Gaines I.	Tony is marvelous, patient and the most meticulous technician I have ever had in my home. Unfortunately my ductwork is in a slab and is tremendous to clean. Tony, without hesitation, got right to work and by hand, pulled a lot of odds and ends out while cleaning. He made sure that everything was clean, including my home and thanked me when he was finished. A true pleasure dealing with this man and the company in general. I will continue to use them.
Oct 25, 2016	Benjamin Opipari	The woman who does the scheduling and reminder phone call is the nicest person I have ever had the pleasure of speaking with over the phone. The technician was on time and completed the work in a thorough and timely manner. I liked that he showed me the enormous lint chunk he pulled out and it had obviously sparked at some point and easily could've started a fire. I am now on their 2 year reminder list. I plan to use them again to clean our entire house's air ducts. We've lived in our house for 3 years and the dryer vent has never been cleaned. I do 12-15 loads of laundry per week and decided this would be a good idea.
Oct 23, 2016	Kelly P.	These people are amazing. Tony and Luis came to our home and cleaned our ductwork and dryer vent and the air quality has really changed in our home. These guys did a wonderful job and we will use them again.
Oct 13, 2016	Pat C.	Brandon did such a good job - he cleaned the ductwork in my home and treated mold which was also on my coil, cleaned my dryer, replaced 6 registers and in the early afternoon, 2 more technicians came to help with the process. They were very efficient, I really thought they would make a mess but they did not. This is one company that came and did what they said they were going to do. I am a fan for life!
Oct 12, 2016	Chris C.	Joe and Ramon - great job. They walked me thru the cleaning process, allowed me to take pictures, showed me strange things that were encountered. They did a great job and I am impressed with this company and will certainly use them again.

Oct 10, 2016	Reshida K.	<p>I contacted QAS four months after they came out to clean my ducts, to discuss a concern that I'd been made aware of during an inspection. I received an immediate response from Kevin Smith, who was determined to rectify the situation to my satisfaction.</p> <p>Would I recommend QAS? Certainly. I do understand things happen from time to time; however, it's how a company responds, that speaks volumes about them. The concern I was given four months after the transaction is a testament to their integrity and customer service.</p> <p>There's a reason why the reviews here are so stellar... it's the reason why I hired them.</p> <p>Thank you Kevin.</p>
Oct 10, 2016	Sonja P.	<p>Called Quality Air Solutions to clean my dryer hose. Sonny came and showed me that the hose had become disconnected and had holes in it was wasn't drying efficiently. He replaced the hose and it only cost a couple dollars more than the original price to clean it. I was impressed with Sonny, he was there on time and didn't try to sell me things I didn't need. I will use this company in the future.</p>
Oct 10, 2016	Reshida K.	<p>QAS came out to clean my ducts in May. I contacted them four months later to discuss an issue that I had been made aware of. I received an immediate response by Kevin Smith, who was determined to rectify the situation to my satisfaction.</p> <p>Would I recommend QAS? Certainly. I do understand things happen from time to time; however their excellent reviews speak volumes... it's the reason why I hired them. Not to mention, the concern I was given four months after the transaction, is a testament to the integrity and customer satisfaction this company operates under.</p> <p>Thank you Kevin.</p>
Oct 07, 2016	Gloria P.	<p>Luis is the nicest man. He arrived on time, took his time to thoroughly clean the ductwork in my home and took great pains to make sure my home was clean. He used drop cloths and treated my home with great respect. Air quality is much, much better. This is the first time I have done this in 40 years - it really does make a difference. Thank you.</p>

Oct 05, 2016	Paul Katlin	<p>They went above and beyond. Great service. Air duct cleaning</p>

Sep 30, 2016	Jessica Specht	Amazing!! The guys were nice and thorough. The difference in air quality is incredible. There was confusion over payment(you can only use one Angie's listdeal at a time apparently), but they handled it so professionally. Every business should run like this! We will definitely use them again. This was our first time using a company like this and I read a lot of reviews. This company is as good as they sound from their reviews.
Sep 29, 2016	ROBERT E MCGUIRE	Dryer vent cleaning and air duct cleaning. They cleaned, sanitized, and fogged all of the duct work of our stepson's condo. They also replaced all of the duct vent covers and reconnected the vent from the clothes dryer to the outside receptacle and got rid of a number of bird nests that had clogged the outside vent. They showed up on time and worked hard to make the air quality safe once again. We were very pleased with their work and look forward to having them do work at our home after our renovations are complete. They even cleaned the HVAC unit out on their balcony and suggested that it be replaced soon. It cost more than the average duct cleaning, but it needed a lot of extra attention. All duct work was covered with mold.
Sep 23, 2016	Anonymous	Great. Very professional & polite, time estimate was accurate. 15 minutes after time block but called to tell me. Cleaned dryer vent.

Sep 16, 2016	Gina D.	Luis was amazing. He went above and beyond to clean my home and handle a mold issue that I had. I absolutely loved him, worked very hard on the cleaning and really took care of me. If I could give this company 10 stars, I would. Great company to deal with.
Sep 16, 2016	Jake I.	Brandon is great. He came to my home, cleaned 2 systems, my evaporator coil, dryer vent, gave me the works. He was so efficient, worked very hard the entire time he was there, my coil was yukked up and now clean as a whistle, as is my ductwork. Terrific technician. I will be using them again.
Sep 15, 2016	Connie L.	My dryer exhaust outside was caked with lint. Tony and Ramon came out and cleaned the dryer hose and outside spic and span and put a box over the vent so no birds could get in. Great job, I am very pleased.

Sep 13, 2016	Nina Wu	<p>Excellent, Luis took off his shoes upon entering my home and had an incredible for detail when cleaning our ducts. He came at 3:30 pm on a Saturday and stayed until 7:30 pm. He did a great job, cleaning up afterwards too.</p>
Sep 12, 2016	Elena Volokho	<p>Air duct and dryer vent cleaned.</p> <p>Rented a townhouse and decided to clean the air ducts to make sure the air was clean.</p> <p>Tony and Joe were our technicians from Quality Air Solutions. They called 20 min in advance and arrived on time. They did an amazing job. They told us that air ducts in our house have never been cleaned in 30 years. They showed us how much dirt the air ducts and air registers have had in them. It was truly disgusting. It's hard to imagine living in the place and breathing all that dust and dirt, and mold in.</p> <p>Tony gave us many useful tips that we implemented right away.</p> <p>These guys are very thorough, knowledgable, professional, and respectful of your home. We have already recommended them to all of our friends.</p>
Sep 12, 2016	Charles B.	<p>Luis came to clean out my dryer vent. What a nice man. He was very thorough, knew what he was doing, cleaned up after himself and didn't charge me an arm and a leg. A nice company to do business with.</p>

Aug 22, 2016	Rachel	I called Quality Air Solutions to have my air ducts cleaned and requested that the technicians wear shoe coverings as I have white carpeting. Sonny not only took off his shoes but wore booties and laid drop cloths to cover everything and keep it perfect. He worked for about 3 hours going into every room and doing work at the furnace. Very professional, did a spectacular job cleaning my vents and felt comfortable with him in my home. Will use this company again. Very pleased.

Aug 16, 2016	Mary B.	Great group of guys. Sonny, Joe & Luis worked for hours trying to unclog my dryer vent. 4 hours and 3 guys later it was clear. Evidently I have the worst dryer vent run with bends and turns and ups and downs. Fantastic crew. Thank you for your diligence.

They pulled so much wet lint out of my dryer it's amazing that I didn't burn the motor up on the dryer. As they were following the piping and cleaning, they found a wet spot in my movie room ceiling and found that the dryer vent had come apart. They took an elbow off and again cleaned another clog and got my vent back together. They did a very professional job. I can't say enough good things about these guys, fabulous job. I have scheduled an appointment for 6 months from now to do this cleaning again. Once again, damn good job.

I'm so happy that I did. Tony came out and did a fabulous job- we went from a complete blockage (birds nest!) to 100% flow. I really want to highlight that he was very respectful of my house- removed his shoes without asking and kept the mess to a minimum. My husband yapped his ear off with questions, and he could not have been more gracious. Not his fault, but I noticed an odor coming from the dryer after he finished. I called the dispatcher, and Tony called me back within an hour. He was at my house before 7:30 AM the next day to deal with it. I cannot say enough good things about this company- do not even consider calling anyone else. We will be customers for life.

This company didn't try to sell me 5 things I didn't need. Thank you Quality Air Solutions. You will have my business for here on.</p>
Apr 12, 2016	Harry Nazarian	<p>These guys are top notch folks. They sent their technician out who was punctual, thorough, professional, and very good personality. He walked me through the process of what he would be doing, even showed me the crud afterwards. I highly recommend these folks for your HVAC cleaning needs. Their price can't be beat either! We need more of them. BADLY!!</p>
Apr 08, 2016	Samuel Kadushin	<p>Sonny clean all ducts, vents etc the dryer vent was cleaned also. Excellent job, answered my question did not mind that I questioned him throughout the process.</p>

Apr 08, 2016	Suzannah G.	<p>I called Quality Air Solutions to have my dryer hose cleaned. When they came in, they checked over everything and told me that it was indeed clogged and the white vinyl hose I had was not up to code and needed to be replaced. I agreed and was thinking that it was going to cost big bucks. It took approximately 1 1/2 hours and didn't cost much more than the cleaning would have. Great employee - TONY. I was glad to have this technician in my home and the work looks great. He took his time and I am thrilled with the replacement and cleaning. I am getting on a 2 year reminder with them for dryer hose cleaning. Thank you for a job well done.</p>
Apr 08, 2016	Jackson Stephenson I.	<p>I had a 4 man crew this morning to clean my air ducts. Brandon, Sonny, Tony & Joe - consummate professionals. They worked from about 8:30 this morning until almost 6pm. They worked the entire time only taking a 15 minute break. They have informed me along the way of what was found, showed me the disgusting filth in my ducts and even showed me after pictures. My ductwork looks spotless. They have put drop cloths down and have protected my floors, my furniture, my vents. Just a great group of guys and very careful with the consumers home. I highly recommend Quality Air Solutions to any one that needs their ducts cleaned.</p>

Mar 20, 2016	Kristin Brown	Contractor lived to perform air duct cleaning service – included blocking all air intake ducts, segmenting system to remove accumulate dust, and restoring, household to nominal condition. Quality air sent a team of two (Brandon & Luis) professional start to finish. Team went above and beyond to remove 70 years accumulated dust. Team did an extraordinary job. Highly, highly recommend.
Mar 19, 2016	William McHenry	Sonny cleaned heating / ac ducts, removing duct and debris. Vacuumed up afterward. Job lasted about 2 ½ to 3 house. Professional job by a competent technician recommended by Davis & Davis, Kensington M
Mar 18, 2016	Meyerson G.	Joe is fantastic. He did a duct cleaning at one of our properties. He kept in constant contact with me telling me what he found and what should be done about it. I agreed as I want my tenant to be comfortable and safe. I had another company come prior to Quality Air Solutions and they were there for an hour and just moved some dust around. Quality Air Solutions was at the property for 4-1/2 hours. I have been sent before and after pictures of the ductwork and am astounded. The ducts were cruddy and now look like new. Great Company and I will use them with the rest of our properties. Thank you for a job well done.
Mar 18, 2016	William D.	Outstanding job! I called Quality Air Solutions because I set up with Sears and they never showed up. Quality Air Solutions fit me in the same day to have my air ducts cleaned. Brandon showed up, on time and started the job. A little bit later, Joe showed up to help. I just can't say enough good things about this company. I am very impressed with them, they came on short notice, professional, and now I am breathing clean air and I am thankful.
Mar 15, 2016	MARYLEN FLOOD	I will recommend this company and use them in the future. Cleaned air ducts, cleaned clothes dryer, changed clothes dryer air duct. Really went above and beyond. The crew was on time, polite and professional. I was impressed by how thorough and professional they were. Note-cost is approximate. It was 5 months ago and I've misplaced the receipt.

Mar 06, 2016	Joe G.	Tony and Sonny came by to clean our ducts and did a remarkable job! They answered all of my questions and we're very friendly and informative. A very professional crew that I will recommend to anyone.
Mar 01, 2016	Tin T.	This is the second time in 2 years we have had our dryer cleaned. Joe & Luis just left. They know what they are doing. They are knowledgeable, honest, they work very clean and we are extremely pleased. We are on a reminder now for every 2 years to have this work done. I will always call Quality Air Solutions as I feel I finally found a company that will honestly do the work that I have hired them to do. Thank you.

Feb 09, 2016	Carol G.	Tony was outstanding. He came to my home to clean out my dryer hose and found that it had disconnected in several places and was not working/drying properly. He took the time to find the problem, diagnose and fix it in a matter of several hours. My dryer now runs like brand new. I feel very lucky to have found this company and I will use them again and again.
Feb 01, 2016	Parker Gallagher	Treated the air ducts and blower for mold and cleaned the air ducts Sonny and Joe were great, informative, completely thorough and professional in their work.

Jan 30, 2016	Guy F.	<p>Top notch service. Sonny started the 3 hour process with a complete description of what he was going to do, including removing the return duct covers using a sharp knife to separate the painted-over covers (which he did very carefully), how long he thought it would take, how the cleaning would proceed, and how he would open holes in the duct work in the basement (he showed my how many would be needed in order to do a complete cleaning). He was very careful as he brought his equipment in to the basement, covered the tile floors to prevent scratching. When he was finished he showed us the dust and cat hair that he recovered (20 years is far too long between duct cleanings, that's for sure!), explained that he found no mold, and asked about our dryer vent (which I have cleaned out every couple of years) and offered ideas on how to do it (he did offer to do it if I preferred). He left no mess at all. I was impressed.</p>
Jan 25, 2016	Rob C.	<p>Tony and Sonny did a great job. They called way ahead of time to let me know they might be a little late due to poor weather conditions however they still arrived within the original appointment time. They were extremely careful and quick at the same time and taught me some ways to maintain a clean dryer vent. They also checked out my vents and furnace. At one point Tony couldn't find a screw he took off to remove the guard for the outside vent and instead of ignoring it or trying to hide it from me, he went back to his truck to get a replacement screw. Sonny also asked me if it was possible to keep the front door open and when I said that we preferred not to because of my sick daughter, he said it was not a problem. I liked these guys because they were knowledgeable, respectful, careful, and professional.</p>
Jan 25, 2016	Richard Arudt	<p>Sonny. Service tech (Sonny) explained what he was going to do as we towed the house. Placed tarps on floor, cleaned up. Showed me exactly what he did. Very pleasant young man.</p>
Jan 07, 2016	Alyse Gagliardi	<p>Duct cleaning Great experience - knowledgeable, friendly, on time, and delivered what was agreed to.</p>
Jan 05, 2016	John B.	<p>Wonderful job! I was very impressed with Sonny and Ramon. They took their shoes off, were very respectful of my home, vacuumed afterwards; just a pleasure to deal with. We are currently renting, but when we buy our own home, the first call I will make will be to Quality Air Solutions and request for Sonny to come and clean my new home.</p>
Dec 22, 2015	Jules Spector	<p>Cleaned ducts The service was very good and everything was handled very professionally.</p>

Dec 18, 2015	Pat C.	<p>What a great company! The Quality Air Solutions people came today and worked on our house. I would highly recommend them. The technician (Tony) was very professional, working carefully and thoroughly. He showed us the work through the process and explained what he was doing. He was very thoughtful and straightforward, and worked hard to keep it clean during the process. We have used air duct companies before, and NONE compare. USE THIS COMPANY BEFORE ALL ELSE.</p>
Dec 18, 2015	Patrick Connors	<p>Outstanding company. Tony was professional, careful, honest, engaging, hard working, and knowledgeable. He explained each step of the process and the results were outstanding. We've used duct cleaning services before, and this was by far the best.</p>
Dec 17, 2015	Teresa McCagh	<p>Cleaned all air ducts and unit; sanitized ducts and cleaned dryer vent and dryer. Quality Air was great! They came when they said they would, did exactly what was needed and were extremely neat as well. Our ducts were a mess and Brendan, our technician, did a great job. He explained everything to me as he went along, which I appreciated. I would definitely use them again and would highly recommend them to others. It is an expensive project but one that we had to do.</p>
Dec 11, 2015	John Panek	<p>Thorough cleaning of all of the HVAC vents in a 2 bedroom condo. Joe arrived on-time and ready to get to work. He clearly explained what work would be performed. He proceeded to remove all vent covers and use his specialty equipment to dislodge and then suck out 20 years of dust and mold from the HVAC system. He provided before and after photos that prove the results of this service. Very professional and personable, Joe is a very hard worker and a nice guy too.</p>

They were very friendly, informative and just took care of my home as if it were theirs. A job well done. Very impressed with this company.
Nov 02, 2015	Eugenia P.	Tony and Ramon just left my house. They cleaned my duct work and they worked very hard and helped me with my dryer also. I had this work done years before and the company that did it didn't work half as hard as these gentlemen. I am very pleased with the service I got today and I will use them from now on. I will make sure this goes to my neighborhood list serve. Thank you.
Oct 28, 2015	Liz N.	I found Quality Air Solutions on Yelp and took a chance! They were professional, prompt and thorough. I am really impressed with the service. They took the time to show me the state of my duct work (appalling!) and the results of the work they did yesterday. They were polite and left no mess behind. Tony and Ramon were great and I felt perfectly comfortable leaving them in my house while I had to be out. Tony sent me before and after pictures! I highly recommend this company.

Oct 23, 2015	Emily E.	I would highly recommend Quality Air Solutions. We just bought our first home and got our ducts cleaned. Tony was a true professional. He discovered that the previous owner had neglected to clean the air ducts and there was not only a ton of dirt & dust but also black mold. He was efficient, meticulous, and spent 5 hours making sure that everything was cleaned out and the mold was treated. I am so happy we got this done before the winter!

Oct 18, 2015	Chris D.	We had a fantastic experience with Quality Air Solutions, for a full service duct and dryer vent cleaning. They were extremely thorough and efficient. We worked with Tony and Ramon and they were both awesome -- really great guys, and they went out of their way to explain everything and make sure we knew what was going on. Highly recommended.
Oct 17, 2015	Juanita Li	Cleaned the dryer vent and installed a bird guard. Joe and Luis came to give us a quote on cleaning out our dryer vent. The duct work had all been cleaned 2 years ago by a different company, but our dryer was not drying well. Considering that we line dry during warmer months, it was more like 18 months of use. They were able to clean everything out at the price of their Angie's List deal, so we went ahead w/the service. The cleaned out the lint trap on the dryer itself and the duct work. They also quoted us for changing our dryer to vent to the side, so we can eliminate one 90 degree turn and increase the efficiency and reduce clogging issues. They will be coming back to do that work. The only issue was they arrived past the given window. Traffic in this area is very heavy and that is understandable. It worked out fine as I am a stay-at-home mom, but that might be an issue for others.
Oct 15, 2015	Nina Dozovetz	Sonny - enlarge dryer vent wall hole. Fantastic.

Oct 14, 2015	TJJ	<p>This company is fantastic! I used them last year for a business I run with 8 commercial dryers. I called again this year because I had several that were clogged. Sonny and Joe came out within several days and cleaned all of them again. The service that I receive from this company is first class all the way. Scheduling is a breeze and the knowledge and attention to detail that these technicians give is just beyond compare. I now have a yearly appointment with them to clean all of the dryers. I am a very satisfied customer.</p>

Even my kids Give me a hard time taking their shoes off when going in the house. I can breath better now and ny son's sinuses have gotten already better in just one night. Thanks guys!!</p>
Sep 19, 2015	Michele C.	<p>I highly recommend Quality Air. Tony arrived early and thoroughly explained what he was about to do. He put down coverings, cleaned out who knows how many years worth of dust in a house built in 1946, got rid of the mold, replaced supply and return vents, and left the house looking, and smelling fresher than before! He told me up front what the cost would be, and didn't change the price halfway through the job. Tony was courteous and knowledgeable, and did a thorough job. Will definitely use them again.</p>
Sep 17, 2015	Marguerite Sukacz	<p>Sonny cleaned the heating/air conditioning ducts in my home. He also cleaned the clothes dryer ducts. Sonny arrived promptly, introduced himself and cleaned the ducts in my home. He suggested cleaning the clothes dryer ducts which I accepted. When the job was completed I gave him a check and he requested that I fill out and send you this assessment of his performance. He recommended cleaning ducts every 3-5 years and dryer every 1-2 years. He gave me a discount of \$50 on the dryer. Sonny left everything clean and in order.</p>

Sep 15, 2015	William Liebman	<p>Replace air handler UV light bulb; Clean air handler coils; Treat air handler for mold / mildew. Technician appeared during promised time period. Performed work promptly & thoroughly. Explained in detail work to be performed and work done.</p>

Sep 10, 2015	Sue F.	<p>Tony and Ramon did a great job. They just left my home after cleaning my dryer vent that was scotch taped and glued!! I will continue to use this company and will recommend to my neighborhood list serve.</p>
Sep 02, 2015	Jim and Barbara H.	<p>We contacted Quality Air Solutions to clean the ducts in our home and to clean the dryer duct and vent it to the outside. The two-man team of Tony and Ramon arrived on time, were very professional, respectful and did a super job. Tony took time to explain what they would be doing and showed us the ducts before and the ducts after being cleaned. The ducts had not been done in 40 plus years. They cleaned the dryer duct and ran a pipe to vent it to the outside. Our air quality is much better now and my husband and I feel so good about it. We will definitely call Quality Air Solutions for future duct cleanings and highly recommend them to our friends and neighbors. Thank you so much from a very grateful customer.</p>

Sep 01, 2015	Liz R.	<p>Give Sonny a raise!! He came to my house and cleaned out my dryer vent - it's one of those things that never entered my mind to do. It took him a good hour and he showed me all of the lint and stuff that was clogging the vent. A very nice man, patient and he let me look over his shoulder the whole time. I was very impressed by his knowledge and I will be using this company on a regular basis. Thank you again for the wonderful service.</p>
Sep 01, 2015	Joyce T.	<p>I own a condo and they came and cleaned my ducts and sprayed a moldicide as there was evidence of mold around the unit and they cleaned my evaporator coil. The air quality is so much better in my home I just can't believe it. This is something that I wasn't sure was a necessity but have readily changed my mind. To anyone who has allergies/asthma, I highly suggest a duct cleaning. You will be amazed at the renewed freshness in your home. Brandon and Joe were terrific and would definitely recommend them to my association. Thank you for renewing my faith in the business community.</p>
Aug 28, 2015	Monte Gordon	<p>Complete duct cleaning. Awesome job, attention to detail, explained everything showed before and after pictures. Job done right!</p>

He was careful, meticulous, and cleaned up every area he had worked in. Not once did he try to sell us unnecessary services as other companies do. He was fantastic.</p>
Aug 14, 2015	Mary C.	<p>Brandon came and replaced the vent on my dryer. He did a great job and I feel like I have a brand new dryer. The clothes are drying in 25 minutes instead of an hour and a half. Price was fair for the job that he did. I felt like I got my monies worth and will use this company again. Thank you for your service.</p>
Jul 30, 2015	aaron vangrack	<p>They cleaned the central vents and cleaned out the dryer vent. Excellent work. They even caught the fact that my dryer vent was so full of lint it could have caused a fire.</p>

Jul 30, 2015	Sarah Sa	<ul style="list-style-type: none"> - Inspected supply and return ducts - Inspected blower and evaporator coil - Cleaned evaporator coil - Applied Benefect fungicide - Cleaned dryer vent <p>I scheduled an appointment with Karen to have our air ducts cleaned and our dryer vent cleaned. I didn't even think to ask for an inspection of the ducts first because my husband and I have lived in this home for over two years now and have allergies / sinus problems - so I just thought "let's do it". So I scheduled the cleaning. Brandon and Luis from the company came to my home today to do the services. We did a walk through of the home to locate ALL of the supply and return vents so that they could all be assessed and cleaned. During the walk through I explained that one bedroom did not have carpet because there was water puddling from an ice dam we had this winter and a little mold grew in the corner as well. We talked about this for my concern of mold in the air ducts from running the dehumidifier in the room - possibly circulating mold spores. After setting up and starting the cleaning of the air ducts Brandon informed me that my ducts were actually ver</p>

They provided before and after photos at my request and made recommendations for upkeep after the job was done. They also checked my dryer duct work in case it required cleaning, too, and pronounced it clean and not in need of service. I will readily use Quality Air Solutions in the future.</p>

Jul 09, 2015	Harry N.	<p>I recently called Quality Air Solutions to clean up my vents as my filter was getting clogged up every two weeks! Yes, every two weeks. I showed the tech the new filter I put in a week prior to him showing up at my house, and he was shocked. Upon opening the vents, we saw all the caked on dust. The previous owner of my house really did not care for the house one bit, so I got stuck with the maintenance. Suffice to say, Sunny from Quality Air Solutions was very thorough, professional, good small talker, and worked graciously. He also cleaned up everything and double checked everything before he left. By far, one of the best services I've ever had and I could not ask for more.</p> <p>Bravo Quality Air Solutions, you have a great service formula in an industry full of scammers. I WILL be using these guys again for future maintenance.</p>
Jul 06, 2015	Erna Silberstein	<p>Vent cleaning plus bacteria killing mist</p> <p>Quality Air was a high quality service. They were thorough and knowledgeable. They went around first and had me show them all the vents. They did each one. They were courteous and polite and they cleaned up after. They did what they said. I would recommend and use again.</p> <p>The only thing I didn't like was that one of the guys was really emphasizing how awful my vents were and how I'd been breathing in all this unhealthy stuff and it wasn't a helpful approach for my peace of mind.</p>
Jul 01, 2015	Yakov & Ludmila Pache	<p>Ducts cleaned, coil cleaned, dryer cleaned, all that they could do, they did.</p> <p>I do not know all the terminology. They were on time, worked hard and in a highly professional manner. The brilliant results were obvious. They were very nice and friendly. Thank them a million! "A" means the beat!</p>
Jun 29, 2015	Dorrian Tudrian	<p>Joe and Luis cleaned the air ducts, dryer exhaust, returns toilets and sanitized the system.</p> <p>Joe and Louis were on time. They did an excellent job. joe recommended some important new steps.</p>

Jun 14, 2015	Margaret U Wright	Technicians, Sonny & Jay. Cleaned ducts in preparation for installation of a new air conditioning system. They worked hard for almost 4 hours and seemed to be skilled and efficient.
Jun 12, 2015	Brian L.	Emailed the company for an air duct cleaning a week ago. Karen responded the next morning, and after a quick phone call, I had an appointment set up for a week later. Brandon came out to look at the system, and was honest with me in saying that I probably did not need a cleaning. How many companies would be that honest? Instead of paying \$350 for something I didn't really need, Brandon gave me some sound advice on air filters and how to maintain the system going forward. Excellent company! Never written a Yelp review before, but I was thoroughly impressed with Brandon's knowledge and honesty. If I ever have any issues with my air ducts in the future, this is the company I'll be calling, and I think you should too!
Jun 10, 2015	Camille M.	It's taken me a year to write this review, but I still remember the amazing job that Quality Air Solutions provided. I found myself sneezing a lot inside my recently purchased house. So I started looking at air duct cleaning and found this company. Yes, they cost more than that weekly flyer you get from Sears, but trust that they do so much more and are very thorough. The technician who came to my house was Brandon and he was the best! The entire process took a while, but the results is just amazing. My overall respiratory issues decreased significantly. Brandon even went above and beyond the service by contacting an HVAC MASTER technician friend to check out a system in my house that he thought was questionable because he was legitimately concerned (btw, the HVAC master ok'ed the situation and didn't charge for the consultation). Quality Air Solutions is a great company for air duct cleaning and I highly recommend them.
Jun 04, 2015	Eleanor Padgett	Sonny cleaned the ductwork in my son's home. Sonny did an excellent job explaining the process and answer my questions. He was very thorough, pulled an amazing amount of material out of the ducts. (They may never have been cleaned in this 1957 home!) Job took about three hours; cleanup was fast and thorough. Highly recommend the company and Sonny.

Jun 04, 2015 Henry A. Brandon came to my house to clean my air ducts. He was very nice, cordial, efficient, was very careful to cut around my registers and cleaned up after himself. I can't say enough good things about this technician. It was a total pleasure doing business with this company and I will recommend them and use them again.

May 27, 2015 Laura Stewart Air duct cleaning. They were punctual & very professional. They needed to work in my daughter's room during her naptime & Brandon went out of his way to bring up her pack-n-play out of the basement & set it up for us. Very friendly & helpful. I would definitely recommend!

May 16, 2015 Pavus G. Have you been putting off a vent cleaning? Did you know you needed to clean your vents? Well, turns out we all do. These guys are just awesome--experienced, effective, friendly, and pretty quick. They gave an appointment within a week and did an excellent job. Very glad to have gotten it done.

May 16, 2015 CATHERINE HARTY The firm cleaned all air ducts in the house, supply and return ducts. In addition, they cleaned a gas dryer vent system. Finally they applied a chemical biocide product intended to kill any microbial contaminants to the inside of the duct work. The project went extremely well. Before beginning the work, the technicians conducted a complete walkthrough with me, and explained everything that needed to be done. This included the need to make a cut out in the main ducts in the furnace for access by their vacuum cleaning system. The holes were later neatly capped and plugged when the work was completed. They were careful to cover much of my furniture with lightweight plastic in order to keep the pieces dust free during the cleaning effort. While doing the job, they discovered some loose ducting pipes which they repaired and sealed. Before and after pictures were taken of several points in the duct system and reviewed with me after completion of the job. The job required 3 hours to complete. The work was done extremely professionally. The technicians were clearly highly qualified and were very personable. I was extremely pleased w

- May 04, 2015 VALERIE NELSON leaned out all my air ducts and furnace blower and blew off the furnace coils.
Before I go into what Quality Air Solutions did; let me describe my previous experience with getting my ducts cleaned to illustrate the difference between the two experiences:
The first time I had this done was with another company. A truck with a big vacuum bag was parked outside on the driveway, and the duct openings were covered with a piece of computer paper taped to the duct at the top of the grill. A hose from the truck was attached to the main duct coming out of the furnace, and the vacuum in the truck outside turned on. Supposedly, this was going to suck the dirt out of all the ducts into the bag in the truck. The whole procedure took about two hours. All this did was stir up some of the dirt in the ducts, but there was no performance improvement in air circulation, whatsoever. Frankly, it was a ripoff.
Quality Air Solutions came in and blew out each individual duct with a pressurized hose, starting with the top floor, and working down to the basement. Then, when the gunk was all b

went well. All my questions were answered. The process was not as disruptive or noisy as I feared.
- Apr 12, 2015 NANTHER THANGARA Cut into ventilation system, cleaned all air ducts, vacuumed all individual ducts in each room, repaired ventilation system cut, cleaned any mess made during the air duct cleaning.
Sonny arrived within a half hour of the time I had specified. He walked through the condo with me before bringing in any equipment and assessed how he would approach the job. He was thorough and at the end of the job, showed me all of the dust and debris that was removed from the air ventilation system. He accommodated my need to do a certain room first so that I could move my two birds into that room to shelter them from the noise from the equipment (which was tolerable for me but uncomfortable for them). He assured me that he had found no mold in the vents, so no special mold treatment was necessary. He was courteous and professional throughout. He recommended service again in another 3 to 5 years to prevent a similar buildup. I would definitely do business with this company again!

Clean and sanitize HVAC/duct work in a house that had mold remediation performed

I can't say enough how much I appreciate the work/professionalism of the staff at Quality Air! I bought a house that needed extensive work due to existing mold. A very big part of the project was looking at every possible area that would need repair or cleaning to remove the mold. I'm lucky to be working with an excellent contractor to take care of the primary remediation. Based on his recommendation, I gave Quality Air Solutions a call. This is my first time contracting companies to work with mold and its aftermath but I've worked with many contractors on home projects. You begin to expect certain levels of performance from contractors no matter the work. Quality Air Solutions earned all A's from me.

A little background: The rec room was completely overrun with mold which needed a total tear down and rebuild of walls etc. From what has been determined, there was a massive water leak from the kitchen, the hot water heater was leaking in the rec room, the heat was off throughout the winter of 2014 Air duct cleaning, dryer, and bathroom vents.

I called a company to clean my dryer vent because I was trying to clean it and got a brush stuck in it. The coupon was for \$29 and at the end it became \$188. The company didn't find the brush because they never cleaned my vent. I paid them \$29 and sent them on their way. Not giving up, I called Quality Air Solutions to come clean out my dryer vent. Sonny came, on time, and cleaned the dryer, removed an elbow and retrieved my brush. I

did go behind him and look in the vent with my snake camera. Sonny came and did what I had called them for. Sonny took his time and did a great job, answered a lot of questions, give helpful hints for keeping my system clean, and was a very polite, courteous young man. I will be using this company again and will recommend them to all my neighbors and friends. Thank you Quality Air Solutions.

Mar 12, 2015	AJ L.	<p>Couldn't be happier with the job that was done. I looked around at other air duct cleaning services, but none seemed to match up against Quality Air. Yes, it was more expensive, but you get what you pay for. Tony showed up on time, explained to me what he was going to do, and how it was done. Even let me take pictures during the cleaning. Couldn't believe how dirty the ducts were! Will recommend to anyone thinking about having their system cleaned.</p>
Mar 10, 2015	Stella D.	<p>I just bought a home built in 1948. I do not think the duct system was original with the home but the dust seemed original with the vents. It had to be 25+ years of dust in the vents. I am glad I did clean because it saved me money on exterminating the roaches.</p> <p>The day of the service I was at work and made sure to ask the lady who answered the phone to give me a hour courtesy call. Though they gave me two hour courtesy call, Tony was apologetic for being late. At the time of service I have not yet moved in to the home because it was being renovated. I waited in the car and Tony brought me in once it was almost done. He informed me he found about 80 dead roaches and two German roaches along with a lot of cigarette buds. I had did a home kit bombing for roaches a few weeks prior. I was happy to hear that he found hoping it was the nest. He did recommend some treatment that I declined because my funds were getting low for things that were popping up to fix in the home. I will get the treatment next winter because as of today I only have a heating system. I will also get the dryer vent clea</p> <p>Air duct cleaning. Feb 26, 2015	Kendal H.	<p>We called Quality Air Solutions for an estimate on duct cleaning. We set up the appointment and Sonny came to our home. We appreciated the fact that he took his time to explain the procedure and he was very accommodating in that he had to move some furniture that was blocking the air ducts. He took his time and showed us the scary stuff that came out of our ductwork. He also reassured us that it wasn't the worst that he's ever seen! When Tony got there, he realized that by finishing off the bathroom in the basement, that we had closed the access for cleaning the dryer vent. He had to cut a part of the drywall away to vent the dryer properly and clean it thoroughly. Tony is very thorough and meticulous about the job that he does. He even emailed pictures to me. I am a satisfied customer and will recommend this company.</p>
Feb 13, 2015	Joe Simpson	<p>Cleaned the dryer vent from the inside the house and from the outside in.</p> <p>Overall it was easy to set up and he arrived on time. The work was done quickly and he picked up after himself except he left his dust mask behind. The lint screen had a hole in it after I inspected the work performed which I confronted him about. He admitted that it was his fault and he would let the office know about it. I called the office to let them know about the mask and the lint screen which they said they would cover the cost of the replacement to keep their customers happy. I received a thank you note for using their services, but no refund check for the lint screen as of this writing.</p>

Oct 09, 2014	Tracy H.	Tuesday (10/7/14) one of your technicians, Mr. Anthony (Tony) Lee, came to my residence to resolve a mold issue I had with my residential ventilation system. I wanted to write and express my satisfaction with his service and dedication to customer satisfaction. Your company was hired by the management company to resolve the situation and I think they chose wisely. Mr. Lee was professional, informative, and gave me excellent advise on how to keep my residence air quality to the highest standards. My profession is working for the Air Force Surgeon General Office on matters pertaining to OSHA standard air quality issues, so to say this individual impressed me says a lot for your company and to him as an individual. I will be recommending your company to my friends and associates for any problems they may encounter concerning their air handling systems. Thanks again for excellent service.

Tony arrived on time with additional crew and they cleaned all my air ducts, dryer vent, and cleaned up black mold that was found. Tony explained everything to me from A - Z and provided a video recording as well as pictures of what he saw. He even physically showed me what was resting in some of my vents before cleaning them out. I would definitely recommend Quality Air Solutions to anyone and will be using them again in the future.

- Oct 01, 2014 farch c. the guy came out all professional and had all the equipment that did the job. he show me what came out and how clean it was. He told me what he was doing and how long it was goina take. He was spot on and did a good job. I would recommend them to my family.
- Sep 24, 2014 Selby M. I got a company on a \$89 coupon and had them come out do clean my ductwork. They magically found lots of mold in my system and told me it would be an additional \$750. I told them to get out. I called around and found Quality Air Solutions and their price was higher than I wanted to pay but their reviews were glowing. The technician came out and gave us an estimate and then did the work. It was very noisy but the guy worked tirelessly and cleaned my system. I appreciate good work when I see it and this company and technician Sonny were great. I will recommend them to my neighborhood.
- Sep 24, 2014 Grady F. I hate making calls and checking prices but did it and found Quality Air Solutions. The lady that answered the phone was very personable and gave me a quote and set me up for service. Brandon came out and walked me through the house and told me what he was going to do. Step by step he lead me through the duct cleaning process and showed me the filth he found in the ductwork. What a great company to do business with. I won't ever need to check prices again for this service, Quality Air Solutions will always have my business. Thank you very much.
- Sep 19, 2014 Erika S. We chose Quality Air Solutions based on the company's many glowing reviews -- and now have a glowing review of our own to contribute. From Tony's thorough estimate through his excellent service, we were delighted. Tony and his partner cleaned all our ducts (that hadn't been cleaned -- had likely NEVER been cleaned -- in close to 50 years), including a scarily clogged dryer duct, and made a number of unanticipated repairs throughout the system in a matter of hours. The guys were courteous, personable, and professional, taking the time to explain how the process worked and what to anticipate. Our system is sparkling now (we have the photos to prove it) and we couldn't be more pleased. We'll definitely call Quality Air Solutions for future duct cleanings. Many thanks!
- Sep 19, 2014 Leela Krishna DVC Dryer Vent clean; cleaned dryer vent and back side exit of dryer; Had to cut hole in deck to gain access to dryer vent and then cleaned.It was well done; the part of the deck which was cut was very well put back in place; looks very good. Now, I am finally able to use my dryer. Thank you very much!!!

- Sep 18, 2014 Sharina B. My house was very dusty and I have a new baby. I called Quality Air Solutions and had them come out and give me an estimate. It was free and I accepted the offer. It was a little higher than I wanted to pay but I am so glad that I went with them. Tony is such a wonderful technician and took the time to explain what he would be doing and offered to show me before and after pictures and actually showed me what he had gotten out of my ducts. Now I rest assured that my family is breathing better air and my house is not dusty like before. Thank you Quality Air Solutions - you are an A+ in my book.
- Sep 17, 2014 Nick S. I recently purchased and remodeled a place (and also had no idea whether the previous owners had ever had the air ducts cleaned.) I knew at the very least I needed to have it checked out. I searched Groupon and Living Social and found dozens of realllly inexpensive air duct servicing companies. We're talking \$20-40 a cleaning. These companies generally weren't reviewed that positively. I decided to dig a bit deeper and see what differentiated the more expensive options from these cheaper ones. I came across Quality Air Solutions and decided to make the investment. I am TRULY glad that I did. These fellas showed up on time, had all the professional equipment, and were giving me play-by-plays of what they were doing. They even took some before and after photos as well as a couple quick videos to demonstrate what the tools were doing. Come to find out-- as you'll read in other reviews-- these other cheapo companies will essentially bring in what amounts to a ShopVac to "clean" your vents. It is not at all comparable. My suggestion-- spend the extra money on Quality Air Solutions and know full well that you're getting what I just bought a place and needed the ducts cleaned. As a first time homebuyer, I wanted to make sure everything was good to go prior to moving in. After doing some research on yelp, i found this company. Out of all my appointments to get the house ready this was the best. They showed up on time and did great work. They technician was knowledgeable and courteous. Finally a company that believes in customer service.

Aug 08, 2014	SYLVIA BRADLEY	serviced my dryer ventsThis company was first class start to finish. All my considerable questions were patiently answered on the phone. Yes, i would recommend and use them again.
Jul 25, 2014	Melissa H.	I called QAS because a completely different and unrelated company cleaned our ducts and we noticed that our dryer 'check vent light' was coming on after they left... a Maytag technician told us the first unrelated company probably just pushed the lint to the back of the system without properly cleaning it from the outside. We've only lived here 18 months and it's anyone's guess about if and when the previous owner ever cleaned their dryer vent properly and with three children, we definitely do our fair share of laundry... I was nervous the block could be major fire hazard.Going on this yelp review, we called QAS to fix this problem... The very nice and personable dispatch representative told me she had a cancellation and sent the technician over within the hour.Brandon, the QAS technician, went through thoroughly cleaning out our whole second floor dryer vent system... he literally spent over an hour making sure every thing was totally clean from the inside out (notably, the first company didn't do any of these things).He showed me how we had a Air Duct Cleaning and Mold Removal.The tech showed up on time and got set up right away. We own a large dog and we usually have to put him in his crate during the time that any work is being completed to our house. So when the tech heard our dog barking, he said that we could let our dog out while he worked and even played with him. The tech explained every step of the cleaning up procedure and the mold removal. Once the job was complete the tech walked me through the house and showed me all the work and clean up he did. Overall the process was quick and easy, while the company was extremely friendly and professional.

May 01, 2014	Margaret B.	May 1, 2014. Tony Lee did an outstanding job of cleaning the air ducts and dryer vent in my house. He and Sonny enlarged the size of the dryer vent opening through a brick wall and reduced or eliminated a potential fire hazard. Today Tony returned and replaced all the registers. He even was able to find the cause of a longstanding and annoying rattle in the air duct and fix the problem. He was prompt, courteous, professional and neat. I could not have been more pleased with the work he and Sonny did.
Apr 29, 2014	Meg E.	Tony and Sonny are a perfect team! We had Tony come out and do a free estimate which he was wonderful at explaining what they will do on the day of the appointment if we choose to have them do service for us. We have 3 dogs- he told us that some animals do not respond to the noise very well and also asked if we had cats because cats seem to truly freak out over the ordeal- very thoughtful to inform us as we have never had the ducts cleaned before. On the day of the appointment they call to let you know that they are on their way- so we gathered our pets into their cages and in the driveway they were. They began with our upstairs unit and discovered a good bit of black mold... so they recommended a UV light to be a permanent fix for the mold situation which would only require changing the light bulb every year or so. Tony and Sonny were so informative it makes you feel comfortable and involved in what is going on. This was the first time this house has ever had duct work done and we will certainly keep up with it- only using quality air solutions of course! 100% recommend to any body and everybody!

Apr 26, 2014 Kathryn Tidyman The gentleman arrived on time and explained what he was going to do and how he would do it. He worked methodically and thoroughly, opening each vent in the floors or walls. What most impressed me was that I asked him if my laundry outtake vent needed to be cleaned (an additional \$150, which I was willing to pay because I've read horror stories about house fires that started because of a dirty or clogged laundry vent), and he took a look at it. He said, "It looks fine. You don't need that service now." It's not often that a service provider will be so honest as to say the customer doesn't need one more of his services.

Apr 22, 2014 Yale G. Health is the #1 concern for me as a medical scientist but I didn't realize what terribly harmful air my family has absorbed for years in an old house's harmful, filthy air duct system until Quality Air Solutions expert Tony (Korean Am Christian) has cleaned out tons of dirt out of 4h powerful work! Worthy the hundreds of dollars and highly recommended to my friends!Yale

Apr 21, 2014 Anne Hall The Heating and AC company that services our HVAC system found mold in the heat pump located in our attic(we have a two-zone system). They immediately tried to sell us an overpriced UV light unit and claimed that would be all that we needed to eliminate the problem. We were skeptical, so we contacted a highly rated mold inspection company (Mold Gone -- also on Angie's List). They said that much more than installation of a UV light was needed to eliminate the problem properlyl and permanently, and recommended that we schedule an appointment with Air Quality Solutions, "the only company we recommend," for a free inspection and proposal for abatement. Tony from Air Quality Solutions came to the house and spent at least one hour analyzing the situation. Then, he showed us what he found and explained the problem and possible solutions. He gave us an excellent education, and confirmed his analysis with solid evidence. Then, he created an estimate with line items on the scope of work with different scenarios -- so that we weren't pressured to purchase all the services he offered. He explained that, if we

Apr 14, 2014 Ran Deng Duct Cleaning(Entire house)UV light installationDryer Vent installationSome minor fixes/repairs They are very professional and got the job done quickly. They cleaned basically everything, the workmanship is top notch and they even setup my washer and dryer for me.(I just moved in, so everything were just laying around unplugged). Apr 08, 2014	Susan Myers	Ducts and all vents cleaned. Dryer vent cleaned. Filter changed. Mold on HVAC cleaned off. Tony was on time and informed us of what his procedures were step by step. He showed me the equipment he would be using and showed me all the dust and debris he got out of the ducts. He gave us discounts on the dryer cleaning since he was already on site. He also cleaned the mold for free. One of the best companies I have had the pleasure to hire. I will absolutely recommend Quality Air Solutions to everyone I know.
Apr 07, 2014	Anonymous	Moved in to our new house in November 2013. House is over 60 years old, but furnace was less than 5 years old. When bitter cold hit in January, our house just wasn't heating. A look into one of the returns reveals a huge buildup of dust. We called Quality...they scheduled an appointment within days, came out and gave us a very reasonable estimate. Work was performed a few days later. They did a great job, and cleaned up afterward. Performance of our furnace was night and day. Tremendously satisfied.
Mar 30, 2014	Evelyn Ryles	Cleaned the air ducts. They did a pretty good job.
Mar 25, 2014	Matea G.	I was so impressed with the work Tony did cleaning our dryer duct. He was incredibly thorough and took before and after pictures to show what he had done. Really quality work, and wonderful customer service.

Feb 26, 2014	Y Benie	.Excellent Service Toni is excellent - Great customer service and had a great knowledge of his duty.

Feb 18, 2014	Lawrence Panek	Clean HVAC ducts and install new dryer ventWe were caught with a broken down 22 year old furnace in need of replacement. Our heating contractor provided an option in the bid process for a duct cleaning. Figuring that a cleaning would be a good idea to have done prior to the new installation we decided to have it done. I spoke with my heating contractor at 8:30 and Quality Air Solutions was at our home just after 11:00. Although we didn't choose the particular company we couldn't be happier with the service. The technician did a thorough job and was very clean. We took before and after photos and I was shocked at the difference. The duct work looks brand new inside. While doing the work the technician noticed that our dryer ventilation was not efficient and as it turns out damaged with only a layer of pack dryer lint holding in the flow of air. He replaced it with a steel vent that not only looks much better but has improved the efficiency of our dryer as well. We have been in the house for 6 years and the ducts have not been cleaned in that time, after this experience I will t
Feb 15, 2014	R J R.	To whom it may concern, We have had our ducts cleaned for years by another company and we were amazed at the time you took and the dirt that was removed. I wish we had found you sooner. Thanks for a job well done.
Feb 11, 2014	Jeffrey Maurer	Brandon was very thorough in answering all my questions, in sealing all the registers, in installing the UV light (\$680), and in using Benefect for moldicide (\$280) and with a \$100 discount.I'm VERY impressed with Quality Air Solutions and Brandon!! It's been 4 months now and there is not a trace of black mold. I HIGHLY, HIGHLY RECOMMEND Quality Air Solutions and Brandon!!!

Feb 05, 2014	Linda L.	Dear Karen, I just had the pleasure of having Brandon clean my ducts of debris, etc. It was a painless procedure, done by a very professional and polite gentleman. I was pleased with his work and with the result. Ms. Lehman, Silver Spring, MD. Vent cleaning and dryer vent cleaning.Went well. Tony is awesome. Thorough, very professional nice young man. Cleaned dryer vent and outside vent.Great! It was 100% clogged and Tony, the technician, took his time and professionally cleaned it. I could see the difference immediately. Sonny & JoeThey were on time, courteous and cleaned up after they were done. Professional services, great customer service, knew what they were doing, cleand up afterwards.
Jan 31, 2014	Kathireen Motleen	
Jan 24, 2014	Deborah Stone	
Jan 24, 2014	Nicole Ventura	
Jan 21, 2014	Christopher Jones	

Jan 16, 2014 Dwight DeGross The young man who came to our home, Sonny, was punctual, respectful, knowledgeable, and effective. I very much appreciated that he thoroughly explained everything he planned to do. Then he did what he said he would do. Afterward he showed me all that had been cleaned from my system - I was very glad that the dirt, and dust were gone! He laid tarps down to cover my floors before he carried/dragged equipment over them - a plus! After he was finished cleaning the ducts, he cleaned up fairly well. The only thing I found afterward were a couple of the small metal circles that he cut from the duct work (which he used for access holes for his tools and later completely plugged). Over all I was very impressed and happy.

Jan 11, 2014 Mrs. W. Dear Laura, I am writing this letter to tell you how much I appreciate the time you took over the phone with me. It was nice to talk to a live person and not have to push any buttons. I look forward to seeing Brandon on the 18th.

Jan 08, 2014 Brett Jeffrey Company did a house duct cleaning and cleaning of the dryer vent. Tech turned up on time, very diligent and professional. House duct cleaning for \$350 seemed fair. \$169 for dryer vent cleaning seems really steep esp since he was already there. But overall very happy with results

Jan 07, 2014 Kim Richeson The service person was very professional, pleasant, and helpful. He explained the work before he did it. He recommended that we not clean some ducts on the recently installed attic unit because he checked them and they were clean. He spent a total of about 6 hours, consistent with the estimate. The price also matched the estimate. He provide helpful recommendations about what to do in the future when we replace our 20 year old furnace. He put down protective covers on the floors and cleaned everything up afterwards. I highly recommend this company.

Note: I had previously obtained an estimate from another company that was for several thousand dollars for the same work. And they tried to sell us additional services that turned out to be unnecessary.

Dec 28, 2013 David Rupp Highly recommended. Sonny was professional, extremely polite, thorough and clean. Our original date was impacted by a significant snowstorm, and while we needed to reschedule our service, I received regular, timely and proactive updates from Quality Air Solutions, which I really appreciated. They were very responsive in setting up the reschedule, giving me multiple options to select from including that Saturday, which I selected. Sonny arrived right on time and did an excellent job. While not the cheapest, I am a very satisfied customer and will use them again next time. A great experience.

Dec 10, 2013	Linda McCloud	<p>Anthony did a very professional job, was courteous and informative. He showed me the dust that had been removed and all told was here about 4 hours, working all the time. Our dryer vent was really clogged so we are grateful that he recommended that. We had had our heating ducts cleaned about two years ago by a different company and did not notice any improvement in the amount of dust in the house after that cleaning. With this cleaning there has been improvement so we are satisfied. When we need to have this done again we will have the same company do it.</p>
Dec 09, 2013	Robin Frei	<p>When Brandon arrived, he was timely and professional. He went to our furnace, and opened it up to look at the return line and the blower fan, and informed us that there is no need to clean the duct work at this time -- it is clean! He showed me the areas of inspection and explained what I was looking at and what it would look like if there was cleaning needed. I was completely prepared for them to give me a sales pitch. Instead, he was forthright in explaining why we didn't need to do anything right now. I appreciated his honesty, and will definitely ask them back in the future if I have any concern about the condition of my duct work.</p>
Dec 09, 2013	Sarah B.	<p>I was hugely impressed by Quality Air Solutions (QAS). Other companies gave us an estimate on duct cleaning without seeing our system. QAS rightly insisted on seeing the system before they could quote an accurate price, and their examination of the system was extremely thorough. They did a great job making recommendations (like an appropriate HEPA filter for our bedroom) and conducting the cleaning, thoroughly removing some fungus they found in one location. The only negative part of my experience was that in spite of it being the same tech who gave me the estimate and then showed up to conduct the cleaning, he was surprised when he came back that we don't have parking attached to our home (he mistakenly thought we had alley access). So, if you live in an urban area and don't have attached parking, you'll need to reserve street parking in front of your home so they have access to their central vacuum located on their truck. In spite of this minor problem, which was luckily resolved by a neighbor moving her car, I was very impressed by the detail-oriented nature of the QAS employees and their professionalism.</p>
Dec 07, 2013	Hellene B.	<p>I would recommend this company for their great customer service. The tech gave me a lot of insight about the systems and the camelback cricket. They do exactly what is expected and more by explaining and showing you the problems in your home. Will always use them. Once again great all around service.</p>
Dec 07, 2013	Barry Riebman	<p>Arrived on time, was very thorough, cleaned all ducts, left no mess in the house or on carpets and explained what he was doing.</p>

Dec 03, 2013	Catherine Flynn	They did a really good job. One man came out with a big machine and washed the ducts and put water through the air ducts. I've only had one other experience with duct cleaning and the machine they used then was extremely noisy and it took them half of the day. It didn't seem to do anything for the home. I would reccommend
Nov 24, 2013	Richard Gottron	Pleasant-actually found several difficiencies such as closed outlets.
Nov 24, 2013	Linda Podesta	In advance of replacing our HVAC system we hired Quality Air to clean our ducts. Sonny arrived on time, was very efficient and respectful of our home and he showed us what was removed from our ducts at the end of the job.
Nov 12, 2013	Radmila Buckley	It was extremely well done.
Nov 12, 2013	Pauline B.	I had all the vents in my house cleaned and sanitized. The person who came, Sonny, did a wonderful job. He did not disturb me in my work, stayed several hours, found mold, which I had suspected, and cleaned it up wonderfully. He was very polite and courteous and I am very pleased with the outcome. Already, I am not sneezing like I use to in the morning. Good job all around!
Nov 09, 2013	Mr. Jonathan A.	Dear Quality Air Solutions, This is just a thank you for all the extra work Mr. McHale performed for us. We had a birds nest in our bathroom vent and it was very disturbing to us. After cleaning our ducts for several hours, Mr. McHale offered to get rid of the nest and didn't even charge us for the time. This is the old fashion service that we don't see very much of today. Please share this with Mr. McHale.
Nov 05, 2013	Rob S.	Dear Brandon, Thanks for all the extra efforts on our three systems. I think you did an outstanding job and well worth the money. The last company we used charged us twice the amount and took half the time and care. Also, my wife and I appreciated the thank you card. I think you will be a great success.
Nov 04, 2013	Veasy Kin	Tony arrived at scheduled time, did the work in a professional & efficient manner. Notified me of problems identified with our ducts and did some unscheduled repairs free of charge. Completed work and left everything as if he had never been here, except we have noticeably better air flow!!
Oct 29, 2013	Angella D. Ferguson	Excellent and professional
Oct 26, 2013	william creighton	Tony did a great job vary happy thank you!

Oct 25, 2013	Mrs. Jane W.	To whom it may concern, We are very pleased with the honesty and integrity of your technicians. They arrived on time and while looking over the system advised us that it really would be no advantage to clean the ducts at this time. We were about to have our floors refinished in a couple of month and they recommended holding off until after the floors were done because of the dust. I felt bad having them out and not paying them for any service. I will have you back after the floors are done and thank you for helping us out.
Oct 19, 2013	Suzanne Colvin	Cleaned all in/out vents in our 3800 sf house. Had not been done since house was built 12 years ago. Was expensive but considering large number of vents, it was worth it. No add-on selling except suggestion to clean dryer vent which we did not need. Very professional young man who showed us the results and said it was normal for a house this size.
Oct 11, 2013	George T.	Tony did a total air duct cleaning and benefect in my home. We can breath easier and the house is very clean and dust free. Thanks for a outstanding job.
Oct 01, 2013	Brian P.	George Thompson Quality Air Solutions, Your service technicians arrived on time in the scheduled window. They thoroughly explained what they were going to do and went about their work in a very professional manner. I had ducts cleaned the year before by another company but, your service was far superior in the amount of dust, debris, etc. They cleaned out. They did an especially good job on the dryer vent. I will use your company again.
Sep 28, 2013	Melissa M.	Quality Air Solutions came just after the scheduled time but, ready to go. They were in and out of our house in less than two hours. They took all the trash with them and did a thorough job of cleaning our ducts. The technician also recommended additions steps we can take to maintain our air quality, which was greatly appreciated and something we intend to act upon.
Sep 27, 2013	Susan Braning	All went well.
Sep 22, 2013	Derrick Hill	The tech was friendly, polite out issue throughout the process and offered advice as to how to maintain my system. The price was a bit higher than expected.
Sep 20, 2013	Lora Berg	excellent and thorough
Sep 16, 2013	Laurel Fountain	They showed up on time and were careful and professional. They regularly checked in to show me what they were getting out and how. There was so much dust in the vents it clogged the furnace fan which they were able to clean and fix. I am so glad I called them. Everything was clogged and filthy and now we can breathe in our new home.

Sep 13, 2013	Charles F.	Quality Air Solutions technicians came and were excellent. They were extremely polite and professional. They were thorough and un-rushed and gave us many extremely helpful suggestions. We will be using the company again and recommend Quality Air Solutions to all of our friends.
Sep 13, 2013	TAMMY R JAMES	The sanitation cleaning to rid the furnace of mold and stale odors went very well. The provider's technician was professional, punctual and very knowledgeable. I would definitely use their professional services again!
Aug 30, 2013	Dr. Renuka Misra	Brandon is a wonderful gentleman and we are very happy with him. He is very knowledgeable and educated.
Aug 27, 2013	Phyllis Namrow	He was on time, efficient- did the work in a timely manner. He counseled us on the time it would take and described what he found at the end.
Aug 26, 2013	Abby Emanuel	They offered a discount to us because we are Angie's List members. They were recommended to us by Mold Gone. They were very helpful in giving us information on how to proceed with improvements to our home. They got the job done quickly and efficiently and finished the project sooner than they thought they would.
Aug 21, 2013	Scott Suttle	First of all, Brandon is awesome. One of the few "what you see is what you get straight shooters" in the trades. I was fully expecting a costly HVAC tube venting project. Long story short, Brandon fixed the existing leaks with HVAC tape and said the venting was older but quality materials and would be better off repairing versus replacing. Brandon checked both my HVAC units and UV air filters. Bottom line, he handed me an invoice for \$0 and suggested a couple of replacements and where to buy them cheaper than he could provide. Call it a loss leader or what you will, Brandon has my business when I need future Ducts or vent work.
Aug 14, 2013	Checkbook Subscriber	We had a bathroom exhaust duct invested with nesting birds causing a fowl smell. Quality Air Solutions, Brandon, cleaned and sterilized the duct, including the fan. He found three dead birds and took great care throughout a very difficult job. Just brilliant! Strongly recommended.

I could not be happier. I will never use another air duct cleaner provider again. They truly seemed to be a cut above the rest with regards to the certifications they have and the knowledge of their staff was far beyond what I have seen in the past. I paid a lot but I feel like I got what I paid for. I was told our house had not had the air ducts cleaned properly in years (decades probably) and now I have the confidence that it was finally done right. I also chose to do the dryer duct and learned that had never been done before - that is scary! I also chose to do the sanitization process but did not feel pressured by the staff at all. Instead, they helped me make an informed decision.

They actually broke a switch when they were here and the owner of the company responded very promptly and paid for the cost to have our A/C vendor make the repair. That level of attention/customer service is hard to find these days! I highly recommend this company!

Aug 10, 2013 Nathan Peak

Quality Air Solutions was recommended to us by our AC/Heating company, Davis and Davis. We had a new AC and Furnace installed after my 30 some year old AC quit on me. It was pretty evident that my duct work probably had not been cleaned in 30 years as well. Tony showed up on time and was very professional. He was also extremely knowledgeable and was very happy to explain everything he was doing. We had a standard duct clean and also added on several services at Tony's recommendation. We did a mold sanitation of the duct work as well which involves some sort of non toxic chemical. We also had our dryer vent cleaned out as it was very dirty too. Tony did a great job, he was conscious of not making any messes. He also adjusted the duct work dampers to maximize air flow to hotter areas in the house. He cleaned up after the work thoroughly. Tony also went above the call of duty in that he told me about an angie's list coupon for the mold sanitation that ended up saving me \$145. Not that big of a deal but he told me about the coupon after I had already agreed to the service. So he is trustworthy t

Brandon had come out to our house several times to help us with mold issues and had been very helpful in giving us good advice. I contacted him to clean and sanitize the ducts. He inspected them and told me that it was not needed and to solve the allergy problems we were having, the UV light in the furnace was the best option. He is very helpful and patient and explained things very well.

Aug 03, 2013 Patricia S.

Your technician, Tony, got right to work and was very efficient and worked very quickly. Tony cleaned very well. Job well done!

Aug 02, 2013	Kristin Amelunxen-Scha	I considered a number of companies and got several quotes and am extremely pleased to have chosen Quality air! The cost estimate was right on target, I did not pay anything more than I was told. Brandon was fabulous, on time, professional, pleasant, didn't try to sell me anything extra that I didn't need. He is totally trustworthy. I left him alone in the house in the morning and met him mid-day when the work was done. He had drop cloths everywhere and vacuumed after the work was done. Quality work for reasonable cost. I would call him back any time. Unfortunately though I won't need another duct cleaning for 5 years according to Brandon.
Jul 23, 2013	Melissa H.	Tony and Hector arrived on time; went right to work cleaning my heating and cooling ducts. They showed me a video of the ducts being cleaned. I certainly will use Quality Air Solutions again.
Jul 01, 2013	Patricia Reynolds	Tony the technician was thorough and professional. He opened our equipment and showed how to properly clean my dryer to maintain.
Jun 24, 2013	Udayan Wagle	Tony came on time and finished within the promised time frame. He was neat, clean, and very pleasant. Explained stuff and answered all my questions.
Jun 23, 2013	Christine L Gallo	Sonny arrived on time & was professionally dressed. Suggested that I add dryer vent cleaning. Cleaned up meticulously; protected furniture & flooring. Felt totally comfortable with his presence for the 4 1/2 hours he was here.
Jun 21, 2013	PAUL & Donna DAMICO	Very well - removed on time, did a great job - very went clean.
Jun 05, 2013	Kathryn Kelly	We were very pleased with the service. Sonny is an exceptional person. He answered all questions and provided comments where necessary.
May 31, 2013	Philip Armstrong	Quote was competitive, appointment was promptly arranged, arrived on time, very helpful on advice on maintenance and tidied up all work. Excellent!
May 27, 2013	Mark P.	Based on the generally excellent reviews i read I called QAS for cleaning my hot air duct work prior to installing a new furnace and A/C. I was more concerned about quality of work than price so i did not do a price comparison. The estimate was delivered in a professional manner and the technician Tony did a first class job. He carefully explained the procedure, did exactly what he said he was going to do and left the place as clean as it was before he arrived. Incidentally he pointed out the ducts had not been cleaned since the house was built in 1945 even though the furnace and A/C had been replaced in 1993. In other words, very dirty duct work which did not faze him a bit. He also pointed out my dryer needed cleaning and I agreed with him after seeing how clogged the pipe was. Bottom line: a professional and well done job. Absolutely recommend.

May 26, 2013	Sandra Hagan	Tony and Sonny called ahead and arrived on time. They explained how the process would work and kept me informed. They did an outstanding job and thoroughly cleaned up. Both were very professional, courteous, and helpful.
May 16, 2013	Mrs. David J. Wilson	As I greeted them (2) Tony & Sonny, they introduced themselves & shook hands. They told me in detail exactly what they would be doing. They were very careful in our home. Very polite. When finished told me in detail what they found.
May 15, 2013	Melissa Lynch	Technicians arrived punctually, were very efficient in the cleaning process, were professional and courteous. Price was reasonable and I am very satisfied with the work completed.
May 14, 2013	Ann Moldenhauer	Brandon gave the estimate last week and il was impressed that he did not try to oversell us on the disinfecting process. I felt he was very honest about the services we needed. We had the return and supply ducts cleaned out. The process took about 3.5 hours. Brandon performed the service at my request. He showed us the dirt that was collected from within the vents; approx 3 cubic feet of fine dust/dirt. We had had quite a bit of construction/remodeling done prior to this service so I think it was a good choice. He did a great job of picking up after himself and leaving the house in good order. He also answered all of my husband's and my questions thoroughly.
May 06, 2013	David Cowart	They were on time, explained what and how they were going to perform their job. They were fast and efficient cleaned after they were done
May 02, 2013	Checkbook Subscriber	Excellent service. On their first visit to our house, they cleaned our dryer ductwork and did a good job. Months later, we noticed that lint was accumulating in our laundry room in the area around our dryer. Tony came to our house to take a look at the problem, and was immediately able to pinpoint the cause of the problem. The dryer was improperly installed when the prior owners of our house bought the dryer (an unused vent outlet on the side of the dryer that should have been capped was left open, essentially leaving a hole in the side of our dryer). Tony fixed the problem, tested the dryer and the outside vent, and vacuumed up all of the lint that had accumulated around and under our washer and dryer. Even though the problem was caused by the improper installation of the dryer when it was purchased and had nothing to do with any actions on Quality Air Solutions' part, Tony refused to accept payment for his work. We would definitely use Quality Air Solutions in the future.

Apr 19, 2013	Heather Carr	<p>Overall I was extremely impressed by the quality of work and attention to detail that Brandon exhibited. He is a pleasure to interact with, very funny and loves to educate the customer about his work. Due to a scheduling error he had to do the job that usually 2 employees do, but do keep the time window he worked without a break for 6.5 hours straight!</p> <p>After the duct cleaning the indoor air is noticeably improved and I can breathe much more freely at night.</p> <p>I can highly recommend Quality Air Solutions to anyone who needs their ducts cleaned. Their price might have been a bit higher than other companies, but I felt that I got way more than what I paid for</p>
Apr 17, 2013	Jeffery Hazel	<p>Tony, the technician, arrived on time and was extremely polite and respectful of me and the house. He first explained what would be done, did a walkthrough with me, and then focused on his work. He kept me apprised of his progress and finished in the time he estimated at the start of the job. He made sure I was satisfied with the work before I made a payment.</p>
Apr 17, 2013	missy edwards	<p>Wonderful experience with their technician Tony. I would definitely use them again. Very good at explaining everything to me.</p>
Apr 14, 2013	Marceline Alexander	<p>I had my air ducts and dryer vent cleaned. The guys who came to perform the service explained what they would do before they started and they cleaned up when the job was done. I was SHOCKED when they showed me how much dust had accumulated since my last duct and vent cleaning. In 3 years when its time for me to get my air ducts and dryer vent cleaned, I will contact Quality Air Solutions.</p>
Apr 08, 2013	Yuri Inwood	<p>He was early (Branden) & very nice & did good job.</p>
Apr 05, 2013	John Schultheis	<p>Everything from start to finish was excellent and very professional. I have nothing adverse to say about the service provided.</p>
Apr 02, 2013	Marvin Menick	<p>On time, fair price, competent courteous and conscientious</p>
Apr 01, 2013	Jean Seglie	<p>On time, very pleasant, efficient, cleaned up completely and is a very knowledgeable young man.</p>

Apr 01, 2013	Margret Beeke	<p>Based on a recommendation to clean my air ducts from a mold remediation guy I scheduled Brandon to clean my ducts... When he arrived I asked him to verify that I did need the work done because it had been just a year since they had been cleaned. He took a look and said honestly he could not recommend another cleaning at this time. He did think the coils of my air handler needed cleaning and recommended a home remedy I could do for pennies. He also spend some time answering questions I had about certain mold related conditions in my house. I found him to be a remarkably honest, generous, caring, and well informed mold professional anyone should feel confident in working with.</p>
Mar 26, 2013	Karl Kuckels	<p>Tech Brandon was on time. He explained the work to be done. He finished in 2 1/2 hrs. We liked his professionalism.</p>
Mar 22, 2013	Lee Surut	<p>Brandon did a superior job. Took 5 hours.</p>
Mar 16, 2013	Florence Campi	<p>We were very pleased with the overall experiecvnce, and the air quality in our home is greatly improved. They were very careful about locating all of the ducts, carefully removing the furniture away from the ducts that were hidden, and then replacing the furniture. The owner even came over with a new furnace filter to replace the very old and dirty one that was there,</p>
Mar 13, 2013	Checkbook Subscriber	<p>This is the best company I have encountered in many years. They cleaned all the many vents in a large house in Potomac for a reasonable price. Tony, the one technician who came in the morning to do the job, quickly realized he needed also the afternoon and promptly rescheduled his other afternoon appointment. He then spent an entire day on this job, making sure everything would be completed in a professional way. He also labored much more than he expected (and more than the company and he got paid for) to clean the badly clogged long, and snaking dryer vent, which was the main reason I had called them for. I will call them back on a regular basis.</p>

Mar 12, 2013	Valerie Bellman	<p>They were professional, arrived on time, communicated the process, assured me that all the dirt/debris would remain encapsulated.</p> <p>Additionally, they suggested that I consider a germicide following the duct-cleaning. I explained my situation and told them, reluctantly, that I'd have to take-a-pass on that. Upon completion, they revealed that they had spoken with the owner and included it. This was a very reassuring and unexpected perk and one that I TRULY appreciated following extensive remediation work that was done prior, to make the house healthy!</p> <p>Businesses that "go the extra mile" have become all too rare! QAS is THAT company and seems to recognize that good business is more than just showing up, doing the job and collecting the money. It involves active listening, quality work, responding to concerns and creating a beneficial relationship. The folks at Quality Air Solutions have proven that they understand that loyalty is earned and that business is about "people"... not just a service or product.</p>
Mar 01, 2013	Chanie Beckman	<p>This company was a pleasure to deal with from start to finish. The woman who scheduled my appointment was very nice and remembered to give me a call the day before, confirming the appointment.</p> <p>Brandon was very friendly and extremely considerate. He used a different method to clean the vents that would not be so loud because we have 4 cats and a 20 month old. He was efficient (did all the ducts and the vent in about 2 ours) and cleaned up after himself. He even vacuumed up some extra cat hair he found. It was not messy at all and no creatures (human or otherwise) were traumatized. I will definitely use this company again.</p>
Mar 01, 2013	Thomas Philips	It turned out well.
Feb 28, 2013	Donna Philpitt	<p>Tony arrived on time, was extremely professional, courteous and respectful. He answered all of my many questions clearly in terms I could understand and with great patience. He is very friendly and I would highly recommend him.</p>
Feb 26, 2013	Jane Aylward	<p>They were great! They finished on time and were very professional. Unfortunately they turned the furnace off and did not turn it back on. We did not know this until we work up at a 50 degree house!</p>

Feb 11, 2013	Greg Bardwell	<p>We just bought our house and ther ducts had not been cleaned in 20 years! We had a clogged dryer vent also. The duct cleaning went faster than estimated and went smoothly. Our dryer vent was a big problem and took over 2 hours. They had to climb up on our roof to get a birds nest out and had a lot of trouble getting the vent cleared -- it was so full of lint it was brick-like. But they conquered. I would use them again.</p>
Feb 08, 2013	Corinne R.	<p>Had them out to clean our dryer vent in a town home with the dryer located in the middle of the second floor. They did a thorough job of cleaning with tools that snaked all the way through the venting from inside to outside. My major complaint was that instead of quickly vacuuming up the lint that was everywhere on my upstairs deck, the technician chose to blast the lint with his air compressor onto my downstairs patio and into everyone else"s yard. It left me with a big mess to clean up. Not sure if I would use them again. If I did, I would make sure they clean up the mess. Reasonable price of \$199.</p>
Feb 07, 2013	Luisa Saffott	<p>This was my first experience with duct cleaning, Quality Air Solution was highly recommended. Tony spent an hour doing very thorough explanation of the process; walk through the house, very professional and helpful. Tony and Sonny worked all day today, very efficient and courteously with great attention to detail and care. I highly recommend this excellent team.</p>
Feb 06, 2013	Suzanne Lee	<p>Quality Air Solutions was recommended by our HVAC Company. Sonny was working for 4 hours. Quality Air Solutions was higher than some others but I believe their equipment was superior.</p>
Feb 04, 2013	Aravia Holloman	<p>After locating them on Angie's list, I called for an estimate. Someone came at the appointed time and looked at the vents (showing us how dirty and dust-filled they were). He then gave me the cost for cleaning the vents, applying the discounts for using Angie's list. I called to schedule an appointment and the technician came on time. My sister was home for the actuall appointment and I had to be at work. However, he came as I was leaving and I informed him that he should call me for any problems or questions - which he did.He was very thorough and examined my dryer vent and also the inside of the furnace. He called me to alert me of a potential problem with the furnace (a leak) and one of the floor vents (apparent water seepage from outside). He cleaned all of the vents and the dryer vent and followed with the germicide. He advised that my HVAC person be called for the furnace leak and that the seepage problem needed attention. He was hospitable and was knowledgeable in what he was doing, took his time and did a good job.</p>

Feb 03, 2013	Amy McAllister	<p>From scheduling to exit these guys were a dream to work with.</p> <p>They showed up early and took their time making sure the job was done correctly.</p> <p>My husband said they took out nearly two dryer sized bags of junk out of our vent system. Yuck!</p> <p>System is running quietly and smoothly and we have piece of mind that this was done correctly.</p> <p>Thank you!</p>
Feb 01, 2013	Eva Christman	<p>Service was excellent. A staff member Sonny was personable & explained procedure thoroughly. Polite, professional.</p>
Feb 01, 2013	Anne Merrell Wetterwik	<p>Sonny performed the services in a very efficient and informative way. He explained what would happen and showed me the different steps. All air vents were handled with care and apart from a disposable filter all was intact when he left. Immense improvement to air quality.</p>
Jan 26, 2013	Myron Robertson	<p>Tony. Excellent. Informed me about everything before and after he finished.</p>
Jan 24, 2013	Ady Dewey	<p>On time, flexible, neat & clean up afterwards answered all questions thoroughly.</p>
Jan 13, 2013	Lori Sherwood	<p>After having not so good experiences in the past with air duct companies, I looked through the reviews to find a good company. Quality Air Solutions was not the cheapest, but clearly with air duct cleaning, the cheaper companies are risky. This company was great to work with, applied an Angies list discount, showed up on time, did a great job and was professional and courteous. They also gave us good tips for keeping the dryer working properly in between vent cleanings. I would highly recommend Quality Air Solutions.</p>
Jan 05, 2013	Dennis S.	<p>Very impressed with Quality Air Solutions. They did a great job cleaning my air ducts and drier vent. I noticed the difference immediately with my allergies. These guys are professionals and worth every penny! No regrets.</p>
Dec 02, 2012	Checkbook Subscriber	<p>A smoker had previously living in our house. Quality Air Solutions found remains of tobacco that our prior air duct cleaner missed. Great job!</p>
Nov 13, 2012	Pat Evans	<p>The air ducts in my townhouse had not been cleaned in the 7 years I've lived here, and probably a good 5 to 10 years before I bought the house. The Quality Air Solutions service representative, Brandon, did an excellent job with little inconvenience to the family, and the estimated price was spot on. In addition, Brandon, cleaned my dryer and replaced a fire hazardous hose with a metal one, which not only improved drying time, but the possibility of a fire had I left the other hose intact. All in all, it was a great experience, which included a discount, and I will certainly use this company again and refer them to my friends.</p>

Nov 05, 2012 Thomas Koenig

The service technicians arrived on time, were polite and professional, did all the agreed upon work. The lead technician went out of his way to show the before and after results and to explain the issues. He even identified a problem with a UV light in the furnace which I much appreciated.

The only qualm I have was with the cloths dryer duct cleaning and his subsequent statement that the that duct work needed to be replaced. He stated (and offered to show me) that the external vent for the dryer vent was clogged with lint and needed to be cleaned at a cost of \$159 to avoid a fire hazzard. After performing that service, he stated the the dry cleaner duct work was clearly not correctly installed, pointing to peeling paint in the laundry room as proof. He recommended two duct replacement options and gave estimates for the one I recommended. I put off a decision because of other, related work I needed to have done first. What bothered me was how the external vent could be clogged with lint if the duct work was broken. I asked him

Oct 23, 2012 Elizabeth Kowalewski

Two servicemen came to the house and spent almost 4 hours meticuoulsy cleaning out the ductwork for our forced air system. They were polite, personable, and very professional. Tony carefully explained what he was doing and let me see for myself each step of the way. He made numerous reommendations on how to keep the ducts clean. I would hire them again and recommend them in a heartbeat.

Oct 15, 2012 Benjamin Stutzman

I chose Quality Air Solutions because they had good reviews and I didn't want to worry about having a low-cost provider do shoddy work. Based on cost I would consider them a 'premium' service provider, but my interaction with the service technician did not live up to my expectations.

First of all, he arrived a little late making me cut it close with getting to work on time. Then one of the first questions he asked while I was showing him around was whether I also wanted the sanitization option. He said he's cut me a deal and knock \$25 off the regular price of \$250. That's quite the upsell! Funny how they never even mentioned this additional service option to me over the phone when I got a quote and scheduled service. I had made the mistake of assuming it was included. Not a huge deal, but I don't really appreciate that this felt a little like bait and switch. I called the main office to ask whether this was standard and if I really needed this and she graciously suggested it wasn't really necessary except in extreme situations. The service tech on site hadn't told me this

Sep 18, 2012	Brian Proefrock	Service technicians arrived on time in scheduled window, thoroughly explained what they were going to do and went about their work in a very professional manner. I had the ducts cleaned the year before by another company, but his service was far superior in the amount of dust, debris, etc. They cleaned out. They did especially good job on the dryer vent. A little higher price, wise, but worth it for better air quality
Aug 09, 2012	Checkbook Subscriber	Brandon and his team were professional, efficient, honest, and friendly. They even applied the senior discount with our asking. We had 20 vents and 1 returned cleaned in our house (basement and 2 floors).
Aug 08, 2012	Karenina Vanlennep	Tony and Sonny were efficient and professional. They arrived on time and called just ahead of time to notify me that they'd be there soon. They were available to answer questions and in doing so demonstrated their expertise. They advised me as to the dryer vent of my laundry dryer. There was minimal dust fallout and they cleaned up after the job was done. The only issue was that they did not come with equipment (camera) to take photo's of the duct interiors as I had expected. However I provided them with my digital camera and they took the necessary photo's and a video so I could see the extent of the dust that had accumulated over time. Overall I am very pleased with the work they did, and felt comfortable with Tony and Sonny in my home.
Aug 03, 2012	Jane Thomas	Everything was fine No complaints.
Jul 30, 2012	Erwin Sobin	Tech was very professional, worked very hard & kept conversation minimum.
Jul 22, 2012	Zwillinger Sharie	Competent, communicative and careful.
Jul 18, 2012	Elizabeth Ham	Quality Air was able to fit us in the day of after we discovered an old dryer in our basement rental unit was shorting out the dryer and causing a potential fire hazard. Upon calling their office, Nicole (I believe that was her name or Denise) called me back within 10 minutes to let us know they could accommodate us that afternoon. Tony and Sunny arrived a few minutes after their scheduled window, which we did not care about since they were able to fit us in. Tony and Sonny were incredibly professional and very nice. They worked very efficiently and kept our rental unit very clean. They determined the vent had not been cleaned in approximately 20 years and created a lot of waste outside which was also cleaned up very well. We will use Quality Air again for future dryer vent cleaning.
Jul 14, 2012	Jeff Champagne	Tony & Sonny were excellent! They were very professional, helpful, and explained everything. I would use this company again in a heartbeat!!

Jul 10, 2012	Robert Tarloff	Tony and Sunny came on time and answered all my wife and I questions. They provided us with reasons why they would do a certain task.
Jun 19, 2012	Gathoni Mungai	They arrived on time, two very polite and professional gentlemen. They asked me which vents were to be cleaned and I had already marked where all the vents were. I gave them a house tour and they started working. They explained to me what they were doing and also showed me the amount of dirt they were taking from the vents. I was amazed to see what came out. Altogether I was satisfied with the work they did although a bit pricy.
Jun 09, 2012	Linda Hansen	They came out on time and gave a clear explanation of process. Showed before and after. Professional. Techs were Tony and Sonny.
Jun 04, 2012	Di Lane	We had a good experience with Quality Air. They were very professional and prompt.
Jun 01, 2012	Linda Grant	Tony and Sonny were very professional and described the job from start to finish. They arrived promptly and there was no mess left behind. I would highly recommend this company.
May 31, 2012	Robert Bindeman	Professional, timely, and worked around the logistic of our toddler's nap. Helped to have the housekeeper there behind them to clean. Servicemen are dedicated to their job and did nice work. The house actually smelled cleaner/fresher. Attached a bird guard on the dryer vent @ n/c. Yes, I would recommend this company. Don't beleive the "Val-Pak" coupons, you need a company that wont rip you off. Quality Air Solutions is a good provider.
May 28, 2012	gary v. litman	first rate service, professional and efficient.No attempt at up-selling or any other marketing tricks.
May 23, 2012	Andrea Berkeley	Tony and Sonny spent about 3 hours cleaning the HVAC ducts in my three-story townhouse. They were professionals and explained every detail of the equipment and cleaning procedure - then went to work right away. The equipment and truck were clean and organized. There was no heavy side-selling of other cleaning services which I appreciated. I read references on HVAC duct cleaning before I selected a company. If you are told it will take 1 hour and cost \$99, run for the nearest exit. This is a lengthy manual process that takes time. You want professionals who have the proper equipment and you don't want your HVAC system to be damaged by people who don't know how to use the equipment. For a 2,000-3,000sf home, it would take at least 4 hours and cost at least \$400. My townhouse is 2,400sf. Quality Air charged \$365 less a \$50 rebate offer. The interior of the ducts are whistle clean, no mess was left behind and air flow has greatly increased. I heartily recommend these guys.
May 09, 2012	Arzu Karabekir	Very professional on time, great manners. Explained what they were doing step by step. Asked us questions and made sure we were satisfied before they left our job.

May 04, 2012	ed yancey	He was on time and the job was very well done and thorough. He explained to me each step of the way what was being done. I had never had my ducts cleaned since owning the house for 26 years, and there was a ton of dust and dirt. He cleaned it all carefully and left no trace when leaving. I will use them again.
May 02, 2012	Checkbook Subscriber	We used Quality Air Solutions after we read the good reviews on Consumers' Checkbook. Sonny and Tony arrived to clean our dryer vent. Apparently our dryer vent was in bad shape. We had tons of lint build-up from an improperly installed vent pipe. There were also dead mice in it. Tony and Sonny did an excellent job cleaning it all up (even though it was quite a huge task). They did not charge extra. They also gave me information for the future (how often to clean, things to look for), discarded trash leftover from builder, and advised me on next steps. I'm glad we selected them to clean our dryer vent!
Apr 25, 2012	Joan Whiting	It was easy to schedule the appointment . The workers did a very good job and arrived on time. The were very efficient and even cleaned up afterwards
Apr 18, 2012	Patricia Scanlon	Tony... was a job want mean. He got right to work and very efficient, working quickly. Tony cleaned very well. It was pretty much a faced my job, fency large hard. Well done.
Apr 18, 2012	Mrs Herbert Moore	Tony did an excellent job and cleaned up very well.
Apr 12, 2012	Carol Skelly	The service by Quality Air Solutions was excellent. We have a 70-year old house and the ducts had evidently never been cleaned. Brandon came within an hour of when he was scheduled (having called to say he would be a little late) and gave a thorough explanation of what he planned to do. As he began cleaning, he discovered how dirty and clogged they were. He spent 6 hours on a job that should have taken no more than 3. Throughout all of this frustration, he was polite, patient, and careful not the damage the walls, registers, etc. He charged only the original estimate despite the extra time he had to spend. I highly recommend this company (and also recommend getting your ducts cleaned more often than once every 70 years!)
Mar 15, 2012	Joshua Solomon	Everything went very well. The guys thoroughly explained everything they were doing and were very professional. They also were extremely thorough in inspecting our ventilation system and even went so far as to fix several problems they found such as poorly connected vents or holes in vents. Overall great experience!
Jan 19, 2012	amy bean	Great job-showed up on time.Did the job very well.
Dec 30, 2011	Lillian Metzger	Very well.

Oct 07, 2011	Bobby Wong	<p>I suppose I need to cut the company some slack given that they worked me into their very busy schedule after Irene slammed the east coast and everyone's basement flooded all at once. Still, I was disappointed with their customer service, as I felt like, because they were so inundated with business after the storms that they didn't care whether they had mine or not. Perhaps I felt a bit put off after the incredible service I received from Joe at Moldgone (which I've also reviewed), who personally recommended this company, being friends with the owner of this company. My disappointment started when I scheduled my appointment. I tried to explain that my situation was somewhat serious as my son had had a severe allergic reaction to the mold in my basement following the flooding. I understand if they weren't able to make "special" arrangements for me, but the scheduler actually laughed at me when I asked if they had anything earlier than the two-weeks-out appointment they eventually scheduled for me. In addition, when discussing pricing, I inquired about the \$150 Angieslist discount, to which she replied that some other \$50 c</p>
Sep 27, 2011	ROBERT RYAN	<p>Tony the tech was extremely polite and accommodating. He was very professional in his work and I gave him the highest rating.</p>
Sep 14, 2011	Elizabeth Bird	<p>Excellent job! Very thorough and professional. Cared about doing a good job.</p>
Sep 09, 2011	Melissa Montgomery	<p>Quality Air Solutions came just after the scheduled arrival time, but ready to go. They were in and out of our house in less than 2 hours, just before 10am fully cleaned up. From what I could see from the trash they took with them, they did a thorough job of cleaning our ducts. And it might just be my contentment with the service, but the air seems better in our house today.</p>
Aug 30, 2011	Cara Pearlman	<p>The technician also recommended additional steps we can take to maintain our air quality, which was greatly appreciated and something we intended to act upon.</p>
Aug 28, 2011	Charles Feder	<p>Mr. Tony and Hector were extremely courteous, efficient, and knowledgeable. Quality Air Solutions is reasonably priced and provides great customer service.</p> <p>Tech completed the work in about 4-1/2 hours, working steadily. He had no helpers. He was very friendly, personable, and efficient, wasted no time.</p>
Aug 27, 2011	Elisabeth Friedman	<p>Brandon came and thoroughly cleaned every one of our vents and the entire system. In addition, he was very kind to our family, trying not to disturb anyone with the noise of the work. He went out of his way to be kind and helpful. Brandon is a rare person, one who enjoys his work strives for excellence in what he does, and one who obviously loves to help people.</p>

Aug 24, 2011	EDWARD GOODMAN	Overall, we couldn't have been more pleased. See the story above. From the estimate, to the service and a problem that they came back to fix; Brandon was respectful, timely, honest, helpful and always with a smile on his face. Highly recommend this company.
Aug 18, 2011	S. R. Levine	Tony, the technician, was late due to traffic, but he called. He answered all my questions, and explained the whole process to me.
Aug 04, 2011	Constantine Seder	He was very neat, using drop cloths where necessary. Tony was on time. Located all ducts. Explained what he was going to do. Did a great job. highly recommend.
Jul 20, 2011	Peter Brigham	Outstanding service. Very professional. We have a large house (2 zones, 3 floors + basement). And a lot of stairs just to get to our front door. Outside temperature felt like over 100 degrees with high humidity. Tony didn't flinch. He carried a vacuum about the size of a mini cooper up our front steps and all over the house, cleaning ducts, returns, supplies and changing filters where necessary. He demonstrated extensive knowledge of our systems, made some repairs and pointed out problem areas that our usual service tech has clearly overlooked. He patiently answered my questions, showed me what he was doing and made recommendations for better efficiency. Very pleased.
Jul 20, 2011	William Cohill	They called us to let us know that they were on their way and arrived on time. They covered the carpet and worked in a very professional way. Mr. Tony and Mr. Hector were the technicians who came to our place to do the work. I would highly recommend them to anyone.
May 25, 2011	Ludi Leito	It was fantastic! Joe gave me an estimate and Brandon performed the cleaning. Both of these guys were great! I felt very comfortable with both of them. I really appreciated that they both went through step by step of the process with me! Before Brandon was even done, I recommended this company to three friends! Thank you SO much!!

The amount of dust in the world is increasing, but the equilibrium in my house has shifted. If you want your ducts cleaned these are the people to call. I do a lot of small projects myself, but when I pulled the cover off the vents I realized I would be better off calling a professional. They had a sophisticated series of filters on the vacuum that was six feet high or so. They take this silicone tentacled wand that runs on compressed air and feed it through as the vacuum runs. It beats the dust off the walls of the vents. The technician was very professional, tolerated my questions, watching and was a real pleasure to talk with. He explained all the procedures and was very careful coming in and out of the house with equipment. He advised me about the right filters for the air handler and fixed up my dryer vent. We ended up discussing air pollution and some aspects of environmental atmospheric chemistry. If you are thinking of cleaning some old ducts yourself with a broom and a shop vac you won't get them clean like this and you will likely just

Requested cost estimate and appointment by phone for work that was completed within one week of service call. The service scheduler Laura was polite and efficient, and a reminder call was placed the day before the appointment. I requested the technician named Brandon when scheduling the service call because he was frequently referenced in Angie's List reports. His reputation is well-deserved and aptly earned. Brandon was experienced, professional, competent, neat and personable. He explained in detail each step in the duct cleaning process, and estimated accurately the time required to clean my system. Brandon frequently solicited my comments and reactions as he progressed through remediation of the duct system. The equipment used to clean the ducts was state-of-the-art and in like-new condition. After the duct system was cleaned, Brandon suggested the blower motor assembly in the air exchanger should be cleaned as well. My HVAC system had just been serviced 3 days prior to the QAS visit, and the HVAC technician informed me the blower motor needed to be cleaned. Brandon provided a cost

Apr 16, 2011	MARIE FUJIMURA-JUSI	I decided to have the system replaced to prevent possibility of dryer fire and to comply with the manufacturer's recommendation against using the old tubing. The price quote was fair, and Brandon did an excellent job removing the old system, and also, re-routing and installing the new system. He showed me the old tubing and joined parts, pointing out the amount of lint present in the odd angled areas and the outflow area which terminated against the deck. He explained everything he did, showed me the old parts, and cleaned up after himself. He had to change the route he had specified on his first visit, but he showed me new route and explained cogently the need for the change. My dryer works more efficiently now and I'm relieved that this problem was taken care of before I had a fire.
Mar 31, 2011	Ailis Wolf	They showed up on time. He was really nice and did a good job. He explained everything. He also recommended using a different kind of filter than what we had been using. Their price was better.
Mar 10, 2011	Andrew Loughnane	Outstanding service & outstanding price. Simply put: the technician that assisted us (Brandon) provided the BEST customer service that we have experienced since moving to DC in 2003. I would strongly recommend Quality Air for anyone in need of cleaning their ducts and/or repairing their ductwork (and I would also suggest requesting Brandon, if possible). It was absolutely pouring rain the day that Brandon cleaned our system, and he was extremely conscientious of tracking in mud/rain and he kept his work area spotless. He even spent a few minutes walking outside the house (in the rain) looking for cracks in the foundation that may be causing circulation issues which was totally above and beyond the call of duty. He was respectful of the fact that we have animals in the house and he gave us ample warning to move them around so they could avoid being subjected to the moderately loud cleaning noises associated with this type of work. He spent extra time explaining our HVAC system (in plain English, no less) and fire hazards and even performed light maintenance improvements to our system. And, of course, the
Feb 08, 2011	Robert Counts	They were courteous on the phone and in person. Showed up when expected and did the work within the time frame expected.
Dec 18, 2010	Arthur Boyars	Arrived on time. Explained the work. Worked efficiently. Good job.

Nov 24, 2010	Michelle Jackson	It went great. When I called for an estimate the woman who I spoke with was really helpful. She explained the process, what to expect and answered all my questions. It was easy to schedule a convenient date. Joe arrived as scheduled and did the whole thing in about 3 hours. To my knowledge the ducts have not ever been cleaned on a house built in 1946. Joe went through and efficiently cleaned duct by duct. When he was done he stayed to make sure that the heat would restart. It didn't immediately start and he cleaned out some dirt built up on the burners in the furnace to get it going again. The job stirred up very little mess (especially considering the job). The whole thing went very smoothly and easily. Joe also cleaned my dryer vent form me while he was at it. I'm happy with the outcome and would recommend Quality Air to anyone looking to have their vents cleaned.
Nov 16, 2010	Checkbook Subscriber	The tech patiently explained everything he'd be doing and answered questions before beginning work. Very thorough job.
Oct 11, 2010	LAURA COHEN BARO	The service was excellent! Quality Air agreed to come on a Sunday to accommodate our schedule and the intense summer heat. They were very professional and really went the extra mile!
Oct 10, 2010	PJ Hallberg	They were great-arrived early-very polite, explained all they would do-did their own set up and clean up
Oct 08, 2010	Peter Verchinski	First, the technician was an hour and a half late (scheduled start time was 12:30-1pm). While he timely called me and told me that he was running late (he was "on his way" or something to that effect), I didn't realize (and I don't believe he told me) it was going to be a full hour and a half. Thus, the tech finally came at 2:30 (on a Saturday afternoon). When the technician arrived (he was at least apologetic--he informed me this was his 3rd job of the day--and he seemed tired enough that it was presumably true), he proceeded to set up. I had already started getting to work on taking the vents off (while waiting for him), so he finished taking off the vent covers, set up the machine to suck debris from near the HVAC unit, and began to blow air through the vents. The technician had informed me repeatedly that the vent cleaning was a very clean process because the dust and debris stayed in the vents and got sucked up by the machine that he had brought in; this clearly turned out not to be the case. The whole process of blowing air into the vents was much, much dirtier than I expected. In fact, whole clouds of dirt and debris f
Oct 04, 2010	Peter Vardon	Excellent in every way, a nice guy who did more than expected.
Sep 27, 2010	Ellen Korb	Both of the guys were great and one noticed a potential leaking pipe in the basement, which encouraged me to get it fixed.

Sep 24, 2010	William Dickerson	Joe and Brandon were excellent - showed up on time, explained the process, were professional and left our home clean.
Sep 24, 2010	Anita Glick	The workers were on time, clean, polite, and efficient. They were willing to do everything needed to do the job right. Two days later, and the house seems much cleaner.
Sep 22, 2010	Mary E. Cahill	Joe was very efficient, thorough & courteous. I highly recommend him.
Sep 15, 2010	K Lee	When we bought our townhouse, the ducts were in pretty sad shape --- rust in the ductwork, on the registers, and even staining the surrounding carpet. I was worried we'd have to replace it all, but with the thorough cleaning from Quality Air Solutions, we can breathe easier for now. The 3 technicians (Joe, William, Brandon) arrived on time and were friendly and efficient. In addition to cleaning the duct system, they also repaired a duct boot that had been torn and bent around the edges, replaced a rust-encrusted boot, and built a new dryer exhaust pipe. We had initially only requested the duct cleaning, but upon arriving, one technician noted our builder-standard nylon dryer hose. He mentioned that lint could easily build up in the ridges, making it a fire hazard; he later showed how coated our hose was. We agreed to have him build & install a metal exhaust pipe, which he did that same afternoon (including buying the materials himself, fitting the pipe inside the house, and removing the old hose). As far as I'm aware, we were not charged for this extra service (only the regular dry
Sep 15, 2010	Gumilla Ekberg	Great - from appointment to finish - terrific!
Sep 12, 2010	Sandra Tropper	They did a good job, cleaned up reasonably well and even did plaster repair work on a vent.
Sep 04, 2010	Rebecca Friedlander	The technician, Brendan, called when en route to give us an expected arrival time. He was professional and efficient, checking out the furnace and HVAC before getting to work. We had just purchased the home and were having the ducts cleaned before moving in; he found one of the filters had been installed inappropriately and appeared unsalvageable. He worked it over and managed to make it usable; we appreciated the extra effort. He explained what he was doing periodically and answered all of our questions. He was in and out in a matter of just a few hours, leaving no trace of dust or dirt behind. We were very pleased with the service and would both recommend and use Quality Air Solutions again.
Aug 23, 2010	Pamela Marcus	It went really well. The serviceman arrived early (after calling to make sure it was okay). He did an extremely thorough job. He even cleaned the vent covers. The serviceman also cleaned my dryer vent for free. He was professional and very friendly. The price was very reasonable for the quality of work that was performed.

- Aug 18, 2010 Olivia Easley Joe and Dave were a couple of minute early. They went right to work and spent close to five hours cleaning my ducts. I was very impressed by their work. I highly recommend them!
- Aug 18, 2010 Checkbook Subscriber This company provides dryer vent cleaning as well as air-duct cleaning. Since the same crews do both, I feel my remarks may have some value in guiding others towards quality workmanship. The men were fantastic! They explained precisely what had to be done and worked efficiently. I am very pleased.
- Aug 17, 2010 Toby Moss This was a challenging task since the work had to be done in a tight crawl space on a very hot day. While I was given an estimate before the work was started, some issues were discovered that required far more work than was anticipated. I was told that they would have to charge me an additional \$100. I felt this was absolutely fair -- especially after learning there were some dead rats in this small area, as well as one live one, where they were working. I am very pleased with the work that was done and will be calling them for regular duct cleaning.
- Aug 09, 2010 Checkbook Subscriber Each air return removed carefully to ensure that paint/wallpaper was not disturbed, work done professionally in about three hours ensuring that each vent was thoroughly cleaned. Make sure that no dust/debris remains on any surface.
- Jun 18, 2010 Jane Towell It could have also caused a fire and he didn't even charge me for that. There were two young men who I dealt with. It was a fantastic experience and they were terrific. I have two Irish setters and they were friendly to them. They also complimented the dogs. They were busy working and were very clean as well as neat. That extra service that they provided would probably save our lives some day and also other people. So I informed the other partner about the service provided and he told me that his partner does the same at every place they go. I felt that the price was fair for what they did. It will certainly help our air conditioner to function better. If someone would have come out to fix that extra problem we had with our washer, then it would have probably cost us \$50. They provided top quality service. They were very responsive and the young man who did the duct cleaning was on time. They were very friendly but very professional. I would definitely use their services in the future too

Jun 14, 2010 Auburn Romoser My only regret is that circumstances have prevented me from posting my comments before now. Our need was for a total house duct cleaning. I had received coupons in the mail and looked up those companies on the internet. Then I checked out a number of the companies on Angie's List. The mail coupon offers were much lower priced; but as I researched the various companies, I felt that if I was going to pay for this work to be done, I wanted at least that it be done completely and well. The Quality Air Solutions crew was outstanding from beginning to end. They arrived promptly on time, and Brandon explained in detail what they do & how it's done. The equipment was set up in such a way as to protect floors, carpets, and furniture. When I first requested an estimate from Quality Air Solutions, I was told their work includes unlimited number of vents and returns, and they do not charge extra for travel. That was different from many coupon offers. The estimate given was \$395, minus the \$50 discount since I had the Angie's List coupon. I paid exactly \$345 and was very pleased with their work and work ethic. They did a th

Jun 06, 2010 Danny Senter Very well. Brandon & Joe arrived on time and were polite and professional. While my cats were not at all pleased with the sound of the ducts being cleaned, they were careful not to traumatize them. They provided pointers on how to keep the ducts clear of gunk in the future and were very thorough in their work. Brandon also showed me how to secure the air filter in the unit they serviced and explained it's function as well. Both workers received phone calls during the job, but in neither instance did they interfere with the speed or thoroughness of their work. I would definitely recommend this company to anyone interested in having their ducts cleaned or serviced.

May 23, 2010 R Panzer The job went very well and I would work with them again. The team was extremely polite and outgoing. They did a complete job although there really isnt a way of knowing for sure as you cant see in the ducts. I have every reason to believe them. They were prompt and put in a lot of work to complete the job in a quality manner. The only knock I have on the team was they would have left some of their equipment at my house if we didnt follow behind them to check the work. I'll give them the benefit of the doubt and assume the job took longer than they expected and were trying to move quickly.

May 13, 2010 Richard Arndt Joe, Brandon and other worker did excellent job of cleaning the duct system. They took the time to actually show, before & after for results of their work. They even installed a dryer pipe at no extra cost. Friendly workers.

Apr 17, 2010	Kevin Smith	<p>When I called I was told the employees would come out to give an estimate and, if they determined they could, perform the service that same day. I called on a Monday (if I remember correctly) and they (Brendan and Tom) were at my house Wednesday afternoon. They were here by 1:00 and were ready to get started. When they were almost done they offered to scrub the old registers but I declined as I wanted all new registers. Everything looked and smelled so clean that I was not about to put those old disgusting registers back in. They put down tarps and there was no soot, etc to be found. They even offered to wash my kitchen floor afterward in case they left something there (which they didn't". Efficient, polite and very friendly. Thanks guys! We are very happy customers. The Macks</p>
Apr 06, 2010	Michele Landa	friendly and efficient service
Apr 05, 2010	Patricia First	<p>They were exceptional, I could not have been more pleased. The price was fine and the quality was top notch. They were here right when they said they would be. If we needed to we would use them again in a heart beat.</p>
Mar 31, 2010	Edward W Hummers Jr	<p>My wife was concerned that the cleaning of the ducts would result in dust throughout the house. The method used, however, did not do so. The crew was very professional, explaining the process as it went along. With regard to cost, I received a \$50 discount because of Angie's List and, because the crew noticed that our furnace is serviced by Davis & Davis, advised that we were entitled to a further \$50 discount on the dryer vent cleaning. We recommend the company highly.</p>
Mar 27, 2010	Sarah Guymont	<p>We had never had the ducts cleaned in 12 years, and doubt our predecessors did either. When Joe & Brandon came to quote for the job I asked about the aluminium dryer hose, which always worried me as a potential fire hazard. They confirmed that it was and that they could replace it with something more solid. The job was quicker than I had expected, and very clean. At the end of the job I was staggered by the amount of dust etc that was blown out of the ducts. The house smells so much cleaner, and I feel much happier with the more substantial dryer hose.</p>
Mar 16, 2010	Greta Scott	<p>Quality Air Solutions, LLC was a pleasure to work with. They were punctual, organized, and professional. They took the time to explain the job, paid attention to my concerns and assured me that the job would be done correctly. I was also pleased to get a phone call after the job was done making sure that I was satisfied. The customer service is outstanding, at a time when it seems to be nonexistent in some businesses. I would recommend this company highly, and I am a very picky customer.</p>

- Feb 23, 2010 COCO KAGAN Two professionals came out a week ahead to give me an estimate on vent cleaning because I have two furnaces. They detected a problem that the dryer was venting into the attic instead of the roof. A connection had come loose. Also the exhaust of the attic furnace was not installed properly. They immediately fixed the exhaust and vacuumed all the lint out of the attic, since it was a fire hazard. Then they gave me the estimate for a proper vent cleaning (\$395 for first, + \$300 for 2nd system) as well as replacement of the dryer pipe (\$125) the following week, which was reasonable. I never felt pushed into using Quality Air Solutions, and if I had chosen a different company, that work (removing fire hazard) would have been on them. The same friendly, professional gentlemen came again on our arranged date at the time we agreed and worked for a solid 10 hours! They replaced the flexible accordion hose connected to the dryer with a solid pipe venting out of the roof instead of into the attic. They flushed the upstairs system and then the larger and older downstairs system. It wa:
- Feb 13, 2010 Paul Hofford Our dryer belt broke. While moving it, the old exhaust pipe became detached. In the course of repair, I discovered that the exhaust pipe was not venting. QAS discovered that the original construction of our townhouse was defective and our dryer had never vented outdoors. It was venting into the house & there was a gigantic pile of lint, etc in the walls! They installed it properly and did truly great work. I would highly recommend QAS to anyone in need of such services.
- Feb 03, 2010 MICHELLE JACKSON They were by far the best company I have ever dealt with in this line of work. They pricing was good and I appreciate the service they provided. I will use this company again in the future.
- Dec 09, 2009 Dee Bauer I was referred to Quality Air Solutions by the company who inspects the furnace annually. I called and spoke to Laura, the owner/manager. I was given an excellent overview of the process and cost. Initially the work was scheduled for a date of my choosing, but as "luck" would have it, a serious plumbing disaster occurred the previous night and repair took longer than expected the following day. When the technicians, Joe and Brandon arrived they were sensitive to the situation and offered to reschedule at a less stressful time. A week later, they arrived on time, cheerful and gracious, ready to work. They were careful to walk through the house with me and explain the actual process. They protected the floors and were extremely careful in moving any furniture. I was also so appreciative of their consideration of the pets in the home and the need to accommodate and move them during the work. They inspected the furnace, humidifier and cleaned the coils. Everything was accomplished in less time and with less noise than I expected. I saw the dirt/debris removed from the system...no wonder the house had been so

Nov 09, 2009	Robert Sherman	They arrived on time they had drop cloths, cleaned up after themselves the and sysetms perform better and we have noticed less dust in the air. We are very pleased with the service.
Nov 08, 2009	Jonathan Alperin	My experience with Quality Air Solutions reminded me of the good old days when customer service, competency, and reliability mattered. They arrived on time, inspected my home, explained how they would do the work, gave me an estimate of the cost, and how much time they would need. I was impressed by their knowledge and professional approach, and especially by their obvious concern that I be a satisfied customer. The work was done as promised and on time, I could tell the difference in air quality almost immediately. Needless to say, I was very happy with the entire experience, you just don't find the combination of care and competency they displayed around much anymore. I will certainly be using them again.
Nov 01, 2009	Philip Powell	AAA Very punctual and professional. Very satisfied. They took out a huge bag of dust and dirt. Very happy with their work. Air seems cleaner.
